Special Accommodations

The meeting will be physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Keren Holtz at (503) 230-5424 at least five days prior to the date of the meeting.

SUPPLEMENTARY INFORMATION: Notice was published on August 7, 1996 (61 FR 41130) that an application had been

filed by ODFW (P211K) for an incidental take permit under the authority of section 10 of the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and the NMFS regulations governing ESA-listed fish and wildlife permits (50 CFR parts 217-227). ODFW requests a permit for an annual incidental take of resident, fluvial, and anadromous, endangered, Umpqua River cutthroat trout (*Oncorhynchus clarki clarki*) associated with the state of Oregon's recreational and commercial fisheries in the Umpqua River Basin. ODFW is charged by statute with the management and protection of the fish and wildlife resources of the State. An individual incidental take permit is requested since ODFW is responsible for establishing the State's fishing regulations and controls fishing activities by issuing licenses to citizens.

ESA-listed cutthroat trout could be exposed to various fisheries in the Umpqua River Basin. The actual probability of incidental take varies among the fisheries. Those species that may be present and fished for in the Umpqua River Basin include spring chinook salmon, fall chinook salmon, coho salmon, summer and winter steelhead trout, hatchery rainbow trout, smallmouth bass, striped bass, shad, and white and green sturgeon.

ODFW included a conservation plan in their permit application that includes measures designed to minimize the incidental take of ESA-listed cutthroat trout. One such measure is the termination of hatchery rainbow trout releases in areas of the North and South Umpqua Rivers and, beginning in 1997, closing all remaining trout angling in the Umpqua River Basin, except the North Umpqua River above Soda Springs Dam. Other conservation measures include closing spawning habitat to fishing, maintaining beneficial time and area closures, periodic monitoring and evaluation programs, regulation enforcement, scientific research, recovery planning, and public education.

Anyone wishing to make a presentation at the public meeting should register upon arrival and be prepared to provide a written copy of their testimony at the time of presentation. Depending on the number of persons wishing to speak, a time limit may be imposed. All statements and opinions summarized in this notice are those of the applicant and do not necessarily reflect the views of NMFS.

Dated: August 14, 1996.

Robert C. Ziobro,

Acting Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.
