

Abstract: The IPEDS provides information on postsecondary education—it's providers, enrollments, completions, and finances in addition to other information. The recent publication of final regulations for Student Right-to-Know and changes in financial accounting standards for nonprofit institutions have made it necessary for NCES to modify the IPEDS data collection for 1996 and 1997 to help institutions adapt to these changes.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. § 824a(e)).

On July 31, 1996, Edison Source filed two applications with the Office of Fossil Energy (FE) of the Department of Energy (DOE) for authorization to export electric energy, as a power marketer, to Mexico and Canada pursuant to section 202(e) of the FPA. Rather, Edison Source is a power marketer authorized by the Federal Energy Regulatory Commission (FERC) to engage in wholesale sale of electricity in interstate commerce at negotiated rates pursuant to its filed rate schedules.

The electric energy Edison Source proposes to transmit to Mexico and Canada will be purchased from electric utilities and other entities as permitted by the FERC.
