

with international standards. The Commission concluded, however, that additional comment would be helpful to resolve certain issues. In a separate notice of May 30, 1996, 61 FR 27224, the Commission described the comments concerning the marking of platinum products, submitted in response to the prior FRN, and also discussed its proposed changes to this section. The Commission solicited comment on this provision of the Guides and the proposed changes, requesting comments until August 12, 1996.

On July 25, 1996, the Commission received a letter from the Manufacturing Jewelers and Silversmiths of America, Inc. (MJSA), an industry trade association, requesting that the comment period be extended for sixty days, until October 11, 1996.² MJSA stated that about eight interested platinum jewelry manufacturers met on July 21, 1996 but "those attending the meeting thought it would be helpful to survey a larger universe of platinum jewelry manufacturers than was present" at the meeting. Such a survey would require an extension of the comment period.

The Commission has determined that an extension of the comment period until September 30, 1996 is appropriate. Therefore, to allow all interested persons the opportunity to supply the Commission with written data, views and arguments concerning the Commission's review of section 23.7 of the Guides, the Commission grants an extension of the comment period to September 30, 1996.
