Approval and Promulgation of Implementation Plan; Wisconsin; Site-Specific SIP Revision for the GenCorp Inc.-Green Bay Facility**AGENCY:** Environmental Protection Agency.**ACTION:** Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) proposes to approve a revision to the Wisconsin State Implementation Plan (SIP) for ozone that was submitted on November 17, 1995. This revision is an alternative control method for controlling volatile organic compound (VOC) emissions from storage tanks at the GenCorp Inc.-Green Bay facility. The EPA has approved Wisconsin's general rule for the storage of VOCs. The approved rule states that any deviation from the specifically required control methods found in the State's rule must be proven to be equivalent in controlling the VOC emissions before being approved into the SIP. Because GenCorp Inc. has chosen a different control method than those listed specifically in Wisconsin's rule, a site-specific SIP revision is required to evaluate the control method being used at the Green Bay facility.

In the final rules of this Federal Register, the EPA is approving this action as a direct final without prior proposal because EPA views this as a noncontroversial action and anticipates no adverse comments. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this action. Water Quality Standards for Pennsylvania**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule and request for comments.

SUMMARY: EPA is proposing water quality standards that would be applicable to waters of the United States in the Commonwealth of Pennsylvania. The proposed standards address aspects of Pennsylvania's water quality standards that EPA disapproved in 1994. EPA is taking this action at this time pursuant to a court order. The proposed standards would establish an antidegradation policy, making available additional water quality protection than currently provided by Pennsylvania's "Special Protection Waters Program."

DATES: EPA will hold a public hearing on its proposed actions on October 16, 1996 from 1 PM to 4 PM. EPA will consider written comments on the proposed actions received by October 16, 1996.
