The proposal for the collection of information listed below has been submitted to OMB for emergency approval under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). Copies of the proposed information collection requirement and related forms and explanatory material may be obtained by contacting the Service Information Collection Clearance Officer at the address listed below or the Office of Management and Budget, Paperwork Reduction Project (1018-0075), Washington, D.C. 20503, telephone 202/395-3561.

Title: Federal Subsistence Hunt Application and Permit and Designated Hunter Permit Application and Permit.
OMB Approval Number: 1018-0075.
Form Number: 7-FS 1 (Federal Subsistence Hunt Application) and 7-FS 2 (Federal Subsistence Application for the Designated Hunter).

Abstract: The Alaska National Interest Lands Conservation Act (ANILCA) and Fish and Wildlife Service regulations, found in 50 CFR 100, require that persons engaged in taking fish and wildlife must comply with reporting provisions of the Federal Subsistence Board.

The harvest activity must be reported. In many cases, a special permit is required for the rural resident to be able to participate in special hunts. The harvest information is needed in order to evaluate subsistence harvest success; the effectiveness of season lengths, harvest quotas, and harvest restrictions; hunting patterns and practices; and hunter use. Once harvest success information is evaluated, the Federal Subsistence Board utilizes this information, along with other information, to set future seasons and harvest limits for Federal subsistence resource users. These seasons and harvest limits are set in order to meet the needs of subsistence hunters without adversely impacting the health of existing wildlife populations. The Federal Subsistence Hunt Application and Permit also provides a mechanism to allow Federal subsistence users the opportunity to participate in special hunts that are not available to the general public but are mandated by Title VIII of ANILCA. Both reports provide for the collection of the necessary information; however, the Designated Hunter Report is unique in that it allows

the reporting of the harvest of multiple animals by a single hunter who is acting for others. The Designated Hunter Application and Permit also serves as a special permit allowing qualified subsistence users to harvest fish or wildlife for others.

The collection of information is needed prior the expiration of time periods established under 5 CFR 1320, and is essential to the missions of the Fish and Wildlife Service and the Federal Subsistence Board. Without this information public harm would occur as a result of the Service's inability to set subsistence seasons and harvest limits to meet users' needs without adversely impacting the health and the animal population. The Service has initiated steps to begin the standard OMB clearance process.
