Classification

This action has been determined to be not significant for purposes of E.O. 12866.

The Assistant General Counsel for Legislation and Regulation of the Department of Commerce certified to the Chief Counsel for Advocacy of the Small Business Administration that this notice would not have a significant economic impact on a substantial number of small entities because only a small portion of West Coast salmon fishermen will be directly affected. NMFS estimates that only approximately 3.6 percent of the industry will receive financial assistance through the LBOP. Therefore, the impacts of the notice are not significant within the meaning of the Regulatory Flexibility Act. They are not likely to lead to a reduction in the annual gross revenues by more than 5 percent or an increase in total costs of production by more than 5 percent, nor would this action result in any greater compliance costs.

This program involves a collection-of-information requirement subject to the Paperwork Reduction Act (PRA). The collection of this information has been approved by the Office of Management and Budget (OMB), under OMB control number 0648-0288. Notwithstanding any other provision of law, no person is required to respond to nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the PRA unless that collection of information displays a currently valid OMB control number.
