SUPPLEMENTARY INFORMATION:

Need for Correction

The final rule that is the subject of these corrections was published with several errors and omissions. The document did not contain the amendment numbers. A hidden formatting inconsistency from imported text resulted in the misprinting of some of the typographical symbols used to denote degrees. As a result some of the degree symbols were printed as the letter "N" instead of the symbol "°". And, the instructions for amending § 193.2907 "Protective enclosure construction" did not specify that (c) was to be removed.
