City of Marathon, IA	520	764	129	275
City of Stanton, ND	656	850	163	306

¹5,000 kW is the maximum allocation allowed under the Final Procedures.

The proposed allocations of power for new utility and nonutility customers were calculated using Post-1985 Marketing Plan criteria. Under the Post-1985 Marketing Plan criteria, the proposed summer allocations are 24.84413 percent of total summer load and the proposed winter allocations are 35.98853 percent of total winter load.

The proposed allocations for new utility and nonutility customers set forth in the table above are based on the P-SMBP-ED marketable resource available at this time. If the P-SMBP-ED marketable resource is adjusted in the future, the proposed allocations will be adjusted accordingly.

VI. Review Under the Regulatory Flexibility Act

The Regulatory Flexibility Act, 5 U.S.C. § 601 et seq (Act), requires Federal agencies to perform a regulatory flexibility analysis if a proposed regulation is likely to have a significant economic impact on a substantial number of small entities. Western has determined this rulemaking relates to services offered by Western, and, therefore, is not a rule within the purview of the Act.

VII. Review Under the Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1980, 44 U.S.C. 3501-3520, Western has received approval from the Office of Management and Budget (OMB) for the collection of customer information in this rule, under control number 1910-1200.

IX. Determination Under Executive Order 12866

DOE has determined this is not a significant regulatory action because it does not meet the criteria of Executive Order 12866, 58 FR 51735. Western has an exemption from centralized regulatory review under Executive

Order 12866; accordingly, no clearance of this notice by OMB is required.

Issued at Golden, Colorado, August 21, 1996.

J.M. Shafer,
Administrator.

Western Area Power Administration's Policy for the Purchase of Non-Hydropower Renewable Resources

AGENCY: Western Area Power Administration, DOE.

ACTION: Correction notice of non-hydropower renewable resources policy.

SUMMARY: The following SUMMARY replaces the version that published on August 20, 1996, 61 FR 43051.

The Western Area Power Administration (Western) considered adopting a policy to purchase a portion of its expected purchase power requirements on a project-by-project basis and in a competitive manner, from non-hydropower renewable resource producers. The concept also included a proposal to purchase 50 percent of those purchases from solar resources. In response to comments on the proposed policy, Western decided to adopt a modified policy. Western's policy focuses on technical assistance and facilitation of renewables, as opposed to a mandatory purchase power set-aside for renewables.

Issued in Washington, D. C. on August 26, 1996.

Joel K. Bladow,
Assistant Administrator.

Agency Information Collection Activities

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.), this notice announces that EPA is planning to submit the following continuing Information Collection Requests (ICRs) to the Office of Management and Budget (OMB). Before submitting the ICRs to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collections as described below.

DATES: Comments must be submitted on or before October 29, 1996.

ADDRESSES: U.S. Environmental Protection Agency, 401 M Street SW, Mail code 2223A, Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: For NSPS subpart AA: Standards of Performance for steel plants: Electric Arc Furnaces Constructed after October 21, 1974 and on or before August 17, 1983 and NSPS subpart AAa: Standards of Performance for steel plants: Electric Arc Furnaces and Argon Oxygen Decarburization Vessels constructed after August 7, 1983—Maria Malave at (202) 564-7027 or via e-mail (MALAVE.MARIA@EPAMAIL.EPA.GOV.) or send a fax to (202) 564-0050 her attention.
