

(5) The scholarship recipient should be acknowledged by the community and school in an appropriate fashion, such as high school graduation.

(6) The scholarship should be provided by private funding sources, and should be a minimum of \$500.

The following is one potential design of the program to assist organizations in understanding the scope and magnitude of the effort required in this project. In this scenario, individuals might be selected by local high schools or community organizations as National Service Scholars. They, in turn, might complete a brief application and submit them to either the State Education Agency, which now administers service learning programs, or to the State Commission on National and Community Service, as determined by the governor of the State. That organization, based on merit criteria and consistent with the local guidelines, could select a number of individuals who would have their scholarship matched by the Corporation; and award a number of larger scholarships to particularly noteworthy individuals. The application might also include reference to the connection between service and school studies. Each State agency would forward the applications of the statewide scholarship recipients to a panel of nationally renowned individuals who will select several larger scholarship recipients across the nation.

The scholarships provided by private organizations should be for the purpose of paying the cost of a student's higher education and will be granted under the terms and conditions set by those organizations. The matching amount provided by the Corporation, as well as the larger scholarships, would be paid directly to an institution of higher education.

Eligible Applicants

To be eligible, applicants must be a non-profit organization or educational institution. Pursuant to the Lobbying Disclosure Act of 1995, an organization described in section 501(c)(4) of the Internal Revenue Code of 1986, 26 U.S.C. 501(c)(4), which engages in lobbying activities is not eligible.

Required Activities of the Successful Applicant

The organization selected will (1) Complete a final program design and implementation plan for approval by the Corporation; (2) publicize the program to local school districts, State agencies, and other affected parties; (3) provide assistance to local nonprofits and seek input from national nonprofit

organization with relevant expertise and knowledge; (4) respond to inquiries from all parties in timely fashion; (5) organize the selection process for nationally-selected scholarships; and (6) provide administrative and technical support to the Corporation at all phases of the program.

Corporation Involvement

Substantial involvement is expected between the Corporation and the successful applicant when carrying out the program. The Corporation anticipates providing sufficient staff to support this effort and to oversee the provision of Corporation funds. The applicant must keep relevant Corporation staff informed of its activities; work with Corporation staff during development, delivery and assessment of services provided; and attend meetings/conferences at the Corporation's request.

Project Duration

The Corporation anticipates entering into a cooperative agreement covering a project period of approximately November, 1996 through approximately October, 1997, with the possibility of renewal based on performance, need, and the availability of funds at the discretion of the Corporation.

Overview of Application Requirements

The application should include a narrative section describing the organization's background and capacity to provide the technical and administrative support for this program, an implementation timeline, a staffing plan, and a certification that it will comply with all conditions attendant to the receipt of federal funding. The application may be no longer than 20 single-sided pages double-spaced in 12-point font.

Initially all applications will be reviewed to confirm that the applicant is an eligible recipient and to ensure that the application contains the information required. The Corporation will assess applications based on the criteria listed below (in descending order of importance):

- (1) *Quality*
- (2) *Organizational Capacity*
- (3) *Proposed Costs.*

The Corporation reserves the right to request additional written information from applicants subsequent to the submission of initial applications.
