

Federal Energy Regulatory Commission**[Docket No. CP96-199-001]****Egan Hub Partners, L.P.; Notice of Amendment**

August 29, 1996.

Take notice that on August 27, 1996, Egan Hub Partners, L.P. (Egan Hub) 44084 Riverside Parkway, Suite 340, Leesburg, Virginia 20176, filed, in Docket No. CP96-199-001, an application pursuant to Section 7(c) of the Natural Gas Act to amend its application for a certificate of public convenience and necessity authorizing construction and operation of underground storage facilities in Acadia Parish, Louisiana previously filed with the Commission on February 16, 1996, in Docket No. CP96-199-000.

Egan Hub states that the purpose of the amendment is to revise Egan Hub's proposed FERC Gas Tariff to clarify the nature of services to be offered.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before September 5, 1996, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules. All persons who have heretofore filed need not file again.

Lois D. Cashell,

Secretary.

[Docket No. MG96-17-000]**El Paso Natural Gas Co.; Notice of Filing**

August 29, 1996.

Take notice that on August 21, 1996, El Paso Natural Gas Company (El Paso) filed revised standards of conduct under section 161.3 of the Commission's regulations, 18 CFR 161.3. El Paso states that it is updating its standards of conduct to reflect a name change, a

corporate acquisition and a corporate relocation.

El Paso states that copies of this filing have been mailed to all interstate pipeline system transportation customers of El Paso and interested regulatory commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C., 20426, in accordance with Rules 211 or 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 or 385.214). All such motions to intervene or protest should be filed on or before September 13, 1996. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. CP96-718-000]**Northwest Pipeline Corporation; Notice of Request under Blanket Authorization**

August 29, 1996.

Take notice that on August 15, 1996, Northwest Pipeline Corporation (Northwest), 295 Chipeta Way, Salt Lake City, Utah 84158, filed in Docket No. CP96-718-000 a request pursuant to Section 157.205 and 157.216 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205 and 157.216) for permission and approval to abandon, its Columbia meter station in Klickitat County, Washington, since the power plant and associated pipeline to be served by the Columbia meter station were never constructed. Northwest makes such request, under its blanket certificate issued in Docket No. CP82-433-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

Specifically, Northwest indicates that it constructed the Columbia meter station pursuant to prior notice approval in Docket No. CP92-571-000. Northwest states that the Columbia meter station was built to deliver natural gas to a new pipeline that was planned to be built by Columbia Power Associates, an affiliate of Columbia Aluminum Corporation, to serve a planned new power generating facility adjacent to existing plant facilities of Columbia Aluminum.

It is indicated that Golendale Aluminum Company (Goldendale) successor to Columbia Aluminum, does not object to Northwest's proposed abandonment. Northwest therefore, indicates that it proposes to remove the existing meter facilities and appurtenances, the meter building, all cement foundations and underground piping from the station site, but that the above ground tap valve extension will be retired in place.

Northwest further states that the estimated cost of removing the Columbia meter station is approximately \$30,000, with an estimated salvage value of \$133,954 for the materials to be returned to inventory.
