BILLING CODE 6717-01-M

[FERC Form No. 714]

Proposed Information Collection and Request for Comments

September 4, 1996.

AGENCY: Federal Energy Regulatory Commission, Energy.

ACTION: Notice of proposed information collection and request for comments.

SUMMARY: In compliance with the requirements of Section 3506(c)(2)(a) of the Paperwork Reduction Act of 1995 (Pub. L. No. 104-13), the Federal Energy Regulatory Commission (Commission) is soliciting public comment on the specific aspects of the information collection described below.

DATES: Consideration will be given to comments submitted by no later than November 8, 1996.

ADDRESSES: Copies of the proposed collection of information can be obtained from and written comments may be submitted to the Federal Energy Regulatory Commission, Attn: Michael P. Miller, Information Services Division, ED-12.4, 888 First Street, N.E., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Michael P. Miller may be reached by telephone at (202) 208-1415, by fax at (202) 273-0873, and by e-mail at mmiller@ferc.fed.us.

SUPPLEMENTARY INFORMATION: The information collected under the requirements for FERC Form No. 714 "Annual Electric Control and Planning Area Report" (OMB No. 1902-0140) is used by the Commission to implement the statutory provisions of Sections 202, 207, 210, 211-213 of the Federal Power Act (FPA), as amended (49 Stat. 838; 16

U.S.C. 791a-825r) and particularly Sections 304, 309 and 311. The Commission implements Form 714's filing requirements in the Code of Federal Regulations (CFR) under 18 CFR Part 141.51.

FERC Form No. 714 gathers basic utility operating and planning information, primarily on a control area basis, for the purpose of evaluating utility operations related to proposed mergers, interconnections, wholesale rate investigations, and wholesale market changes and trends under emerging competitive forces. Such evaluations are made to assess reliability, costs and other operating attributes.

Action: The Commission is requesting a three-year extension of the current expiration date, with no changes to the existing collection of data.

Burden Statement: Public reporting burden for this collection is estimated as:

Number of respondents annually (1)	Number of responses per respondent (2)	Average burden hours per response (3)	Total annual burden hours (1)×(2)×(3)
250	1	50	12,500

Estimated cost burden to respondents: 12,500 hours/2087 hours per year × \$102,000 per year = \$610,925. The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) Reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The estimate of cost for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology e.g., permitting electronic submission of responses.

Secretary.
