

permissible noise exposure levels, the operator is required to submit to MSHA for approval a continuing, effective hearing conservation plan that includes provisions for (i) reducing environmental noise levels; (ii) personal ear protective devices to be made available to the miners; and (iii) preemployment and periodic audiograms.

II. Current Actions

MSHA seeks to continue the requirement that mine operators submit hearing conservation plans when they are found to be in violation of the noise standard to ensure that permissible noise exposure levels are not exceeded and that miners are afforded the proper protection to conserve their hearing.
