Notice of Public Meetings on Drinking Water Issues

Notice is hereby given that the Environmental Protection Agency (EPA) is holding a two-day public meeting on September 26 and 27, 1996, for the purpose of informal information exchange on issues related to the development of rules to address microbial contaminants and disinfectants/disinfection by-products in drinking water. Topics at the meeting will include: (1) a discussion of Microbial/Disinfection By-products (M/DBP) policy alternatives, and (2) a review of current and future health effects research for disinfectants/disinfection by-products. The meeting will be preceded by a one-day technical meeting on September 25, 1996, to discuss identification of data sub-sets to be developed from sample collection and analytical activities under the Information Collection Rule issued on May 14, 1996. These will be used to help support future M/DBP rule development.

EPA is inviting all interested members of the public to participate in these and subsequent information exchange meetings on microbial contaminants and disinfectants/disinfection by-products in drinking water. The September 26 and 27 meeting will be held at the Center for Environmental Dispute Resolution (RESOLVE), 2828 Pennsylvania Avenue, Northwest, Washington, D.C. A limited number of phone lines will be available for this meeting to enable attendance by teleconference. The technical meeting on September 25 will also be held in Washington D.C. at the Sheraton City Center Hotel, 1143 New Hampshire Avenue, Northwest. Because of

limitations on conference room seating, members of the public who are interested in attending on any of these days are requested to contact Elizabeth Corr of EPA's Office of Ground Water and Drinking Water at (202) 260-8907 prior to the day of the meeting.

Members of the public who wish to be notified of future meetings should also contact Elizabeth Corr.

Dated: September 6, 1996.

Availability of Document

The PIT Concept Paper on Environmental Permitting and Task Force Recommendations can be obtained via the Internet at 'gopher://gopher.epa.gov' or 'http://www.epa.gov'. After reaching either of these Internet sites, locate the search function and type 'Permit Improvement Team' to locate the Concept Paper on Environmental Permitting and Task Force Recommendations.

Background Information

The PIT was established in July 1994 and is composed of representatives from EPA Headquarters and Regional offices and state, tribal and local permitting agencies. The PIT held numerous stakeholder meetings to solicit input on the most critical permitting issues as well as to obtain feedback on the PIT's initial recommendations. Although significant input on the PIT's recommendations has been received through the stakeholder meetings, a final opportunity to review and comment on the recommendations is being provided to ensure that all stakeholders have an opportunity to participate in the development of significant change in direction for permitting programs that is being contemplated. The Agency intends to use the concept paper on environmental permitting as an overall guide for reforms to permit programs, where appropriate. The individual recommendations contained in the document will be considered by program and regional offices as they develop specific plans in response to the concepts discussed in the PIT recommendations. These plans will include providing assistance to states
