Notice: Notice of Intent To Amend Diamond Mountain Resource Management Plan and Price River Management Framework Plan, Vernal and Price Field Offices, Utah

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent to amend the Diamond Mountain Resource Management Plan, Vernal Field Office, and the Price River Management Framework Plan, Price field Office, Utah to provide management of acquired lands in the Nine Mile Canyon area and prepare the associated Environmental Assessment.

SUMMARY: In compliance with the National Environmental Policy Act of 1969 (NEPA), the Federal Land Policy and Management Act of 1976 (FLPMA) and the Code of Federal Regulations (40 CFR 1501.7, 43 CFR 1610.5-5), notice is given that the Bureau of Land Management (BLM) will consider proposed amendments to the 1994 Diamond Mountain Resource Management Plan and the 1983 Price River Management Framework Plan.

The proposed plan amendment would address future management of acquired lands within the Nine Mile Canyon area of the Vernal and Price Field Offices. An environmental assessment would be prepared to identify the environmental consequences of this action and determine whether an Environmental Impact Statement is needed. Public comment will be actively solicited throughout the planning and environmental assessment processes.

SUPPLEMENTARY INFORMATION: In 1993 BLM received as a donation 762.44 acres, more or less, from Pacific Enterprises Oil Company, Dallas, Texas. These lands are situated in Townships 11 and 12 South, Range 18 East, Salt Lake Base and Meridian, sections 26, 27, 33, 34, 35, and section 3, respectively. Generally these lands are located near the confluence of Nine Mile Creek and the Green River, in northeastern Utah. All but 40 acres of the involved acres are within Uintah County; the remaining acreage is within Carbon County, Utah. This proposed amendment is necessary to update and expand the decisions in existing plans to include these donated lands.

Decisions generated during this planning process would address the acquired land and could supersede some affected land use planning decisions presented in the RMP and MFP. At this time general planning issues to be addressed include:

1. Should the area, especially the riparian areas, be grazed, and if so, to what extent?

2. What special management is needed within the Desolation Canyon National Historic Landmark?

3. What amount and type of access should be allowed, including access to private minerals?

4. Are these lands suitable for inclusion as wilderness?

5. What is the functionality and condition of riparian lands within these acquired lands? What management should be determined to maintain and/or enhance the riparian resource?

Public scoping meetings will be held in Price and Roosevelt, Utah. These meetings will be announced in local newspapers and through other local media. Formal public participation will be requested for review of the preliminary and final RMP and MFP in 1997. Notice of availability of these documents will be published at the appropriate times.

These documents will be prepared by an interdisciplinary team which includes specialists in vegetation, cultural resources, recreation, wildlife/fisheries habitats, realty, and minerals. Other disciplines may be represented as necessary.
