SUPPLEMENTARY INFORMATION:

Need for Correction

In the final rule document, FR Doc. 96-16234, beginning on page 34593 in the issue of Tuesday, July 2, 1996, the cite “§ 663.323(a)(4)(iv)” is incorrectly numbered and should be corrected to read “§ 660.323(a)(4)(iv).”

Also, on pages 34592, 34593, and 34595, the section number for the Pacific Coast treaty Indian fisheries is incorrectly numbered as “§ 663.324.” The section number should be corrected to read “§ 660.324.”

On page 34595, § 660.323(a)(4)(i) incorrectly indicates that the remaining

40 percent of the harvest guideline is reserved for harvest by vessels delivering to shoreside processors. The second sentence should read, “The remaining 40 percent of the commercial harvest guideline is reserved for harvest by vessels delivering to shoreside processors.”

As published, the final regulations contain errors that may prove to be misleading and are in need of clarification.

Fisheries Off West Coast States and in the Western Pacific; Pacific Coast Groundfish Fishery; End of Pacific Whiting Regular Season

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Fishing restrictions; request for comments.

SUMMARY: NMFS announces the end of the “regular season” for the Pacific

whiting (whiting) fishery off Washington, Oregon, and California and the reimposition of a 10,000-lb (4,536-kg) trip limit coastwide. This action is authorized by the Pacific Coast Groundfish Fishery Management Plan, which governs the harvest of groundfish in the U.S. exclusive economic zone off the coasts of Washington, Oregon, and California. This action is intended to keep landings close to the 1996 commercial harvest guideline for whiting while allowing small quantities to be landed by fresh fish and bait fisheries and as bycatch in other fisheries.

DATES: Effective 0001 hours (local time) September 11, 1996, until the effective date of the 1997 annual specifications and management measures for the Pacific Coast Groundfish Fishery, which will be published in the Federal Register. Comments will be accepted until September 25, 1996.

ADDRESSES: Comments on this action should be sent to Mr. William Stelle, Jr., Director, Northwest Region, National Marine Fisheries Service, 7600 Sand Point Way NE., BIN C15700, Bldg. 1, Seattle, WA 98115-0070; or Ms. Hilda Diaz-Soltero, Director, Southwest Region, National Marine Fisheries Service, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213. Information relevant to this action has been compiled in aggregate form and is available for public review during business hours at the office of the Director, Northwest Region, NMFS.

FOR FURTHER INFORMATION CONTACT: William L. Robinson 206-526-6140; or Rodney R. McInnis 310-980-4040.

SUPPLEMENTARY INFORMATION: At its October 1995 meeting, the Pacific Fishery Management Council (Council) recommended that a 10,000-lb (4,536-kg) trip limit apply to landings of whiting after the end of the regular season (61 FR 279, January 4, 1996). The end of the regular season occurs when the “commercial harvest guideline” is projected to be reached (61 FR 28786, June 6, 1996; 61 FR 34570, July 2, 1996, as modified.) The commercial harvest guideline is the harvest guideline minus any amount allocated to the Washington coastal treaty Indian tribes. Therefore, the end of the regular season in 1996 occurs when the commercial harvest guideline of 197,000 metric tons (mt) (the 212,000-mt harvest guideline minus the 15,000 mt tribal allocation) is projected to be reached.

The commercial harvest guideline is divided between shore-based and at-sea sectors, according to the regulations at 50 CFR 660.323(a)(4). At-sea processing of whiting was prohibited on June 1,
