**ENVIRONMENTAL PROTECTION AGENCY**

[FRL-5609-7]

**Agency Information Collection Activities Scheduled for Administration; Collection of Economic and Regulatory Impact Supporting Data: Corrective Action Questionnaire Under EPA Information Collection Request (ICR) No. 1641.01**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the following information collection: Collection of Economic and Regulatory Impact Supporting Data: Corrective Action Questionnaire will be administered under the generic ICR No. 1641.01 Collection of Economic and Regulatory Support Data Under RCRA OMB Control Number 2050-0136, expiration date 10/31/97. In order to comply with the terms of clearance set forth by the Office of Management and Budget, EPA is submitting this announcement to notify the public of the specific survey that the Agency plans to undertake during this year.

**DATES:** For further information or a copy call: Paul Balserak at EPA, (703) 308-0486, and refer to EPA ICR No. 1641.01.

**SUPPLEMENTARY INFORMATION:**

*Title:* Collection of Economic and Regulatory Impact Supporting Data: Corrective Action Questionnaire EPA Information Collection Request (ICR) No. 1641.01. (OMB Control No. 2050-0136; EPA ICR No. 1641.01) expiring 10/31/97. This is a new collection under the approved generic information collection request (ICR) number 1641.01.

*Abstract:* EPA's Office of Solid Waste is conducting the Corrective Action Questionnaire which is a voluntary survey designed to collect information on the type and extent of contamination, remedial alternatives selected, and the corrective action implementation process at corrective action sites which have a stabilization or a final remedy in place. As the sites in this universe are divided between state-lead and region-lead sites, the sample of sites randomly selected for this survey will include both; this ICR is required only for surveying the states. The survey respondents, the State and EPA Regional RCRA Corrective Action regulators, are asked only to gather available data from their files to complete the survey. The data collected through this survey will provide valuable information for future Resource Conservation and Recovery Act (RCRA) regulatory initiatives, such as Subpart S Initiative rulemaking, guidance, and training.

RCRA as amended by the Hazardous and Solid Waste Amendments (HSWA) requires EPA to establish a national regulatory program to ensure that hazardous waste is managed in a manner protective of human health and the environment. EPA is authorized under section 2002 and 3007 of RCRA to collect information from industry and other parties when necessary to carry out its regulatory responsibilities. Executive Order No. 12866 requires that all administrative decisions be based on adequate information concerning the need for and consequences of proposed government action. Executive Order 12866 requires the preparation and evaluation of an Assessment of Costs and Benefits for all proposed regulatory action determined to be significant. An agency may not conduct or sponsor, nor is a person required to respond to, a collection of information unless it displays a currently valid OMB control number (this applies only to the state respondents in this information collection). The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The

Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 6/17/94 (59 FR 31238); 0 comments were received.

*Burden Statement:* The annual public reporting and record keeping burden for this collection of information is estimated to average (4) hours per respondent. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. The total burden hours calculated for this ICR are based upon surveying 100 respondents. For purposes of this calculation it was assumed that all 100 sites would be state-lead, rather than region-lead, sites. Due to this fact, the burden hours presented below represent an over-estimate of the actual burden of this survey.

*Respondents/Affected Entities:* EPA Regional and State RCRA Corrective Action regulators.

*Estimated Number of Respondents:* 100.

*Frequency of Response:* 1.

*Estimated Total Annual Hour Burden:* 400 hours.

Dated: August 22, 1996.

Elizabeth A. Cotsworth,

Acting Director, Office of Solid Waste.
