**Bridgeline Gas Distribution LLC; Notice of Petition for Rate Approval**

September 11, 1996.

Take notice that on August 27, 1996, Bridgeline Gas Distribution LLC (Bridgeline) filed pursuant to section 284.123(b)(2) of the Commission's regulations, a petition for rate approval requesting that the Commission approve the proposed rates as fair and equitable for transportation and storage services performed under section 311 of the Natural Gas Policy Act of 1978 (NGPA).

Bridgeline states that it is a local distribution company with a blanket certificate issued in Docket No. CP93-190 authorizing it to engage in NGPA Section 311 services as if it were an intrastate pipeline. Bridgeline owns and operates transportation and storage facilities in the State of Louisiana.

Bridgeline proposes an effective date of September 1, 1996.

Pursuant to section 284.123(b)(2)(ii), if the Commission does not act within 150 days of the filing date, the rates will

be deemed to be fair and equitable and not in excess of an amount which interstate pipelines would be permitted to charge for similar transportation service. The Commission may, prior to the expiration of the 150-day period, extend the time for action or institute a proceeding to afford parties an opportunity for written comments and for the oral presentation of views, data, and arguments.

Any person desiring to participate in this rate proceeding must file a motion to intervene or protest in accordance with sections 385.211 and 385.214 of the Commission's Rules of Practice and Procedure. All motions or protests must be filed with the Secretary of the Commission on or before September 26, 1996. The petition for rate approval is on file with the Commission and is available for public inspection.
