Standards of Performance for New Stationary Sources Rescission of Alternate Opacity Standard for Omaha Public Power District—Nebraska City Power Station, Nebraska City, Nebraska

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This rule would rescind the alternate opacity emission limit established for the Nebraska City Power Station in Nebraska City, Nebraska, owned and operated by Omaha Public Power District (OPPD), pursuant to the New Source Performance Standards (NSPS) under the Clean Air Act. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If the EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will then be addressed in a subsequent final rule based on this action serving as a proposed rule. The EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

Commenters should also indicate whether they wish to request a public hearing on this action, including the reasons for the request and the nature of the comments which would be presented at any public hearing. If a hearing is requested, the EPA will determine whether to hold a public hearing, and will announce the time and location of any hearing in a subsequent Federal Register document.
