

The notice was published in the Federal Register on July 3, 1996 (FR 61 34875).

By letter of July 31, 1996, the union representative, requested administrative reconsideration of the Department's findings.

The employees of the Progressive Knitting Mills in Philadelphia, Pennsylvania were engaged in the production of men's, women's and children's active wear. Sales and employment at the subject firm declined during the time period relevant to the investigation.

New findings on reconsideration show that the active wear produced by Progressive Knitting Mills is mass marketed. Therefore, the articles manufactured by the subject firm have been impacted importantly by the high penetration of imports in this market. In 1994 and 1995, the ratio of U.S. imports of general playsuits and sunsets from Mexico to domestic production was more than 200%.

Conclusion

After careful review of the additional facts obtained on reconsideration, I conclude that increased imports of articles from Mexico like or directly competitive with active wear contributed importantly to the declines in sales or production and to the total or partial separation of workers of Progressive Knitting Mills of Pennsylvania, Incorporated, Philadelphia, Pennsylvania. In accordance with the provisions of the Act, I make the following certification:

All workers of Progressive Knitting Mills of Pennsylvania, Incorporated, Philadelphia, Pennsylvania who became totally or partially separated from employment on or after April 2, 1995 are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974.

Signed at Washington, D.C. this 28th day of August 1996.

Russell T. Kile,

Acting Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.

Occupational Safety and Health Administration

Supplement to California State Plan; Request for Public Comment; Correction

AGENCY: Occupational Safety and Health Administration (OSHA), Department of Labor.

ACTION: Correction.

SUMMARY: In document 96-23458 beginning on page 48443 in the issue of

Friday, September 13, 1996, make the following corrections:

On page 48445 in the third column, the due date for submission of public comments was mistakenly stated as October 15, 1996. The correct date is November 12, 1996.

The date for receipt of requests for an informal hearing should also read November 12, 1996, instead of October 15, 1996.

The correct date is noted on page 48443 in the second column.

Dated: September 19, 1996.

Joseph A. Dear,

Assistant Secretary.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-352 AND 50-353]

Philadelphia Electric Company; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Philadelphia Electric Company (the licensee) to withdraw its June 5, 1995, application for proposed amendment to Facility Operating License Nos. NPF-39 and NPF-85, for the Limerick Generating Station, Units 1 and 2, respectively, located in Montgomery County, Pennsylvania.

The proposed amendment would have revised the Technical Specification (TS) Section 3/4.1.5, "Standby Liquid Control System," (SLCS) to remove the minimum flow rate requirement for the SLCS pumps from TS Section 3/4.1.5.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the Federal Register on July 19, 1995 (60 FR 37098). However, by letter dated September 3, 1996, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated June 5, 1995, and the licensee's letter dated September 3, 1996, which withdrew the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Pottstown Public Library, 500 High street, Pottstown, Pennsylvania 19464.

Dated at Rockville, Maryland, this 19th day of September 1996.

For the Nuclear Regulatory Commission.

Frank Rinaldi,

Project Manager, Project Directorate I-2, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.
