## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

[Region II, Docket No. 152, NY21-1-6732b, FRL-5555-1]

#### Approval and Promulgation of Implementation Plans; Transportation Control Measures State of New York

**AGENCY:** Environmental Protection Agency.

**ACTION:** Proposed rule.

**SUMMARY:** The Environmental Protection Agency (EPA) proposes to approve a revision to the New York State Implementation Plan (SIP) dealing with Transportation Control Measures (TCMs) needed to offset increases in

emissions from growth in vehicle miles travelled (VMT) submitted on November 15, 1992. The implementation plan was submitted by the State to satisfy certain federal requirements for an approvable ozone SIP for New York State. In the final rules section of this Federal Register, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for the action is set forth in the direct final notice of approval. If no adverse comments are received in response to that direct final rule no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn prior to becoming effective by its terms and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this proposed rule. Any parties interested in commenting on this rulemaking should do so at this time.

**DATES:** Comments must be received on or before October 31, 1996.

**ADDRESSES:** All comments should be addressed to: William S. Baker, Chief, Air Programs Branch, Air and Waste Management Division, Environmental

Protection Agency, Region II Office, 290 Broadway, 20th Floor, New York, New York 10007-1866.
