Conditional Exemptions from TSCA Section 4 Test Rules

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is granting conditional exemptions from Toxic Substances Control Act (TSCA) section 4 Test Rule requirements to certain manufacturers of chemicals substances subject to these rules.

DATES: These conditional exemptions are effective on October 2, 1996.

FOR FURTHER INFORMATION CONTACT: Susan B. Hazen, Director, Environmental Assistance Division (7408), Office of Pollution Prevention and Toxics, Environmental Protection Agency, Rm. E-543B, 401 M St., SW., Washington, DC 20460, (202) 554-1404,

TDD (202) 554-0551 e-mail:TSCA-Hotline@epamail.epa.gov .

SUPPLEMENTARY INFORMATION: This notice grants conditional exemptions from TSCA section 4 test rule requirements to all manufacturers of the chemical substances identified below that submitted exemption applications in accordance with 40 CFR 790.80. In each case, EPA has received a letter of intent to conduct the testing from which exemption is sought. Accordingly, the Agency has conditionally approved these exemption applications because the conditions set out in 40 CFR 790.87 have been met. All conditional exemptions thus granted are contingent upon successful completion of testing and submission of data by the test sponsors according to the requirements of the applicable test rule. If the test requirements are not met and EPA terminates a conditional exemption under 40 CFR 790.93, the Agency will notify each holder of an affected conditional exemption by certified mail or Federal Register notice.

This conditional approval applies to all manufacturers that submitted exemption applications for testing of the chemical substances named in the final test rules listed below from January 1, 1995 through December 31, 1995. Any application received after December 31, 1995 will be addressed separately. Testing reimbursement periods have terminated (sunset) for certain

chemicals and exemption notices are no longer required for these chemicals. In accordance with 40 CFR 790.80, before the end of the reimbursement period, manufacturers or processors of the test substance who are subject to the requirement, must submit either a letter of intent to test or an exemption application. Reimbursement period as defined in 40 CFR 791.3, refers to a period that begins when the data from the last non-duplicative test to be completed under a test rule is submitted to EPA, and ends after an amount of time equal to that which had been required to develop that data or after 5 years, whichever is later.

Exemption applications that were received by EPA for anthraquinone (CAS No. 84-65-1), biphenyl (CAS No. 92-52-4), and 2-ethylhexanoic acid (CAS No. 149-57-5) were not required at the time they were submitted because the chemicals each have completed testing programs, their reimbursement periods have sunset, and they are no longer subject to TSCA section 4 reporting requirements in accordance with 40 CFR 790.80. EPA has included a table in 40 CFR 799.18 that lists chemicals and mixtures that have been the subject of section 4 testing actions and for which reimbursement periods have sunset. Exemption applications received by EPA after that date would not appear in this notice.

Chemicals	CAS No.	40 CFR Citation	Company
diethylene glycol butyl ether	112-34-5	799.1560	Marubeni America Corporation
2-ethylhexanol	104-76-7	799.1645	Wacker Silicones Corporation
isopropanol	67-63-0	799.2325	Spies Hecker, Inc. and Wacker Silicones Corporation
commercial hexane (consisting primarily of <i>n</i> -hexane and methylcyclopentane).	110-54-3 and 96-37-7	799.2155	Grace Container Products

As provided in 40 CFR 790.80, processors are not required to apply for an exemption or conduct testing unless EPA so specifies in a test rule or in a special Federal Register notice.

Dated: September 27, 1996.

Frank Kover,

Acting Director, Chemical Control Division, Office of Pollution Prevention and Toxics.
