

will evaluate the applications based on the following factors: (1) Overall merit; for example: (a) The concept's applicability and commercial potential to the U.S. diesel engine and material and component supplier industries, (b) the interest of industry as evidenced by letters of support, (c) the proposed cost share; (2) the proposed project objectives and the probability of achieving the stated objectives; (3) the applicants research capabilities and qualifications; and (4) the applicant's facilities. DOE will select only proposals which are meritorious based upon the above evaluation and which represent a unique or innovative idea, method, or approach. If separate areas of research are called for by this solicitation, then a physically separate application for each area of research proposed is required. However, two or more areas of research may be combined if strong interfaces or interrelationships can be clearly shown.

This notice infers no commitment by DOE to make an award. A decision to award will be determined after thorough evaluation of applications received and the availability of funds. DOE reserves the right to support or not support any applications. DOE assumes no responsibility for any cost associated with the preparation of applications. Award will be subject to the Energy Policy Act Section 2306, which contains the following limitation: "Section 2306. Limits on Participation by Companies—A company shall be eligible to receive financial assistance under sections XX through XXIII of this Act only if—(1) The Secretary finds that the company's participation in any program under such titles would be in the economic interest of the United States, as evidenced by investments in the United States in research, development, and manufacturing (including, for example, the manufacture of major components or subassemblies in the United States); significant contributions to employment in the United States; an agreement with respect to any technology arising from assistance provided under this section to promote the manufacture within the United States of products resulting from that technology (taking into account the goals of promoting the competitiveness of United States industry), and to procure parts and materials from competitive suppliers; and (2) either—(a) The company is a United States-owned company; or (b) the Secretary finds that the company is incorporated in the United States and has a parent company which is incorporated in a country which affords to United States-owned companies opportunities,

comparable to those afforded to any other company, to participate in any joint venture similar to those authorized under this Act; affords to United States-owned companies local investment opportunities comparable to those afforded to any other company; and affords adequate and effective protection for the intellectual property rights of United States-owned companies."
