

SUPPLEMENTARY INFORMATION:

History

On August 27, 1996, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR part 71) by revoking the Class D airspace area at Alameda, CA (61 FR 44008). This action will revoke controlled airspace since the purpose and requirements for the surface area no longer exists at Alameda NAS (Nimitz Field), CA. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposals to the FAA. No comments to the proposal were received. Class D airspace designations are published in paragraph 5000 of FAA Order 7400.9D dated September 4, 1996, and effective September 16, 1996, which is incorporated by reference in 14 CFR 71.1. The Class D airspace designations listed in this document will be removed subsequently in this Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) revokes the Class D airspace area at Alameda, CA. The base closure of Alameda Naval Air Station (NAS) has made this action necessary. The intended effect of this action is to revoke controlled airspace since the purpose and requirements for the surface area no longer exist at Alameda NAS (Nimitz Field), CA.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 10034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for 14 CFR part 71 continues to read as follows:

SUPPLEMENTARY INFORMATION:

History

On August 30, 1996, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) by established a Class E

airspace area at Groveland, CA, (61 FR 45919). This action will provide adequate controlled airspace to accommodate a GPS SIAP to RWY 09/27 at Pine Mountain Lake Airport, Groveland, CA.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments to the proposal were received. Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9D dated September 4, 1996, and effective September 16, 1996, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in this Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) establishes Class E airspace area at Groveland, CA. The development of a GPS SIAP to RWY 09/27 has made this action necessary. The effect of this action will provide adequate airspace for aircraft executing the GSP RWY 09/27 SIAP at Pine Mountain Lake Airport, Groveland, CA.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 10034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
