

current Rate Schedule SP-FT4 to comply with 10 CFR 903.23.

Western proposes to extend the existing CRSP transmission rate until September 30, 1997.

During the last firm-power rate adjustment for the Salt Lake Integrated Projects, placed into effect on December 1, 1994 (SLIP-F5), the CRSP firm transmission rate was also examined for possible adjustment. It was determined that the existing firm transmission rate was adequate to meet revenue requirements. The CRSP costs associated with the Salt Lake City Integrated Projects' firm power rate increase were offset in the CRSP firm transmission rate study by an increase in transmission revenues not associated with the firm transmission rate.

Order

In view of the foregoing and pursuant to the authority delegated to me by the Secretary, I hereby confirm and approve for a period effective October 1, 1996, until September 30, 1997, the existing Rate Schedule SP-FT4 for firm transmission service over the Colorado River Storage Project transmission system.

Issued in Washington, D.C., September 27, 1996.

Charles B. Curtis,
Deputy Secretary.

Title: Contractor Cumulative Claim and Reconciliation, OMB Control No. 2030-0016, expiration date 2-28-97.

Abstract: At the conclusion of cost reimbursable contracts, contractors will report the cumulative costs incurred, including direct labor, materials, supplies, equipment, other direct costs, subcontracting, consultant fees, indirect costs and fixed fee. Contractors will report this information one time on EPA Form 1900-10. EPA will use this information to reconcile the contractor's costs. Establishment of the final costs and fixed fee is necessary for closeout of the contract.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The estimated annual public reporting and recordkeeping burden for this collection is 42.9 hours. This represents an average of 40 minutes for each of the 65 cost reimbursable contracts estimated to be physically complete per fiscal year. The total number of responses is estimated

at 65 (1 reponse per contract x 65 contracts). The annual cost of this collection is estimated at \$1,133.60 (17.44 per contract x 65 contracts). Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, to acquire, to install, and to utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to adjust the existing methods to comply with any previously applicable instructions and requirements; to train personnel to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information.
