

0145; EPA ICR No. 1150.04. expiring November 30, 1996. This is a request for an extension of a currently approved collection.

Abstract: The Agency uses the information required by 40 CFR part 60, Subpart DDD to identify sources subject to the standards and to ensure that the best demonstrated technology is being properly applied. The standards require periodic recordkeeping to document process information relating to the sources' ability to meet the requirements of the standard and to note the operation conditions under which compliance was achieved.

Owners or operators of the affected facilities described must make the following one-time-only reports: notification of the date of construction or reconstruction; notification of the anticipated and actual dates of startup; notification of any physical or operational change to an existing facility which may increase the regulated pollutant emission rate; notification of the date of the initial performance test; and the results of the initial performance test. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports and records are required, in general, of all sources subject to New Source Performance Standards.

An Agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9. The Federal Register Notice with a 60-day comment period soliciting comments on this collection of information was published on 06/11/96 (FR 14681).

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 51.8 hours per response. This estimate includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of

information; and transmit or otherwise disclose the information.

Affected Entities: Polymer manufacturers.

Estimated No. of Respondents: 90.

Estimated Total Annual Burden on Respondents: 12,425 hours.

Frequency of Collection: Semiannual.

Send comments on the Agency's need for the information in this collection, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR Number 1150.04 and OMB Control Number 2060-0145 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460.

and
Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: September 30, 1996.

Joseph Retzer,

Director, Regulatory Information Division.

Underground Injection Control Program Nonhazardous Waste Disposal Injection Restriction Petition for Exemption—Class I Nonhazardous Waste Injection Has Been Granted to Abbott Laboratories, Wichita, Kansas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final decision.

SUMMARY: Notice is hereby given that an exemption to the land disposal restrictions under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act has been granted to Abbott Laboratories for their Class I Nonhazardous Waste injection well located in Wichita, Kansas. This final decision allows the underground injection by Abbott Laboratories of the specific restricted waste, identified in the petition, into the Class I waste injection well at the Wichita, Kansas, facility, for as long as the basis for granting an approval of the petition remains valid, under provisions of Title 40 Code of Federal Regulations Part 124. As required by Title 40 Code of Federal Regulations Part 148, the company has

adequately demonstrated to the satisfaction of the United States Environmental Protection Agency by petition and supporting documentation that, to a reasonable degree of certainty, there will be no migration of the restricted, greater than 10 percent high total organic carbon (TOC) constituents from the injection zone. A public notice was published on July 22, 1996, that requested written comments be submitted by August 22, 1996. No comments were received during the comment period. This decision constitutes final Agency action. There is no administrative appeal process that can be applied to a final petition decision.

EFFECTIVE DATE: This action is effective as of September 12, 1996.

ADDRESSES: Copies of the petition and all the pertinent information relating thereto, including the Agency's response to comments, are on file at the following location: Environmental Protection Agency, Region 7, Water, Wetlands and Pesticides Division, Drinking Water/Groundwater Management Branch, 726 Minnesota Avenue, Kansas City, Kansas 66101.

FOR FURTHER INFORMATION CONTACT: Robert L. Morby, Chief, Drinking Water/Groundwater Management Branch, Environmental Protection Agency, Region 7. Telephone (913) 551-7682.

Dated: September 12, 1996.

Dennis Grams,

Regional Administrator.

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: This notice announces the Office of Management and Budget's (OMB) responses to Agency clearance requests, in compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer (202) 260-2740, please refer to the appropriate EPA Information Collection Request (ICR) Number.
