**Proposed Project**

The National Health Service Corps (NHSC) Application Process (OMB No. 0915-0146)—Revision and Extension—The National Health Service Corps (NHSC) Scholarship Program was established to help alleviate the geographical and specialty maldistribution of physicians and other health practitioners in the United States. Under this program, health professions students are offered scholarships in return for service in a federally-designated Health Professional Shortage Area (HPSA).

In an effort to improve the procedures for selecting NHSC scholars, a revised

application and a semi-structured interview were pilot tested in the spring of 1996. The revised selection process is designed to broaden the scope of the information available on applicants in order to improve the Agency's ability to identify those applicants with the greatest potential to fulfill the objectives of the Scholarship Program. The application form is being expanded, and the unstructured interview is being replaced by a semistructured interview conducted by a team of two interviewers who use a structured scoring procedure.

Approval will be requested to implement the new process in two phases; the new interview will be used in 1997 along with the current application, with the intent to implement the full process for the 1998 awards.

**ESTIMATES OF ANNUALIZED HOUR BURDEN**

Form name	Number of respondents	Responses per respondent	Hours per response	Total burden hours

**Estimated Total Annual Burden:** 4500 hours. The interview burden includes 1 hour for travel time to the interview site.
