### Federal Energy Regulatory Commission

[Docket No. CP97-24-000]

#### El Paso Natural Gas Company; Notice of Request Under Blanket Authorization

October 16, 1996.

Take notice that on October 10, 1996, El Paso Natural Gas Company (El Paso), Post Office Box 1492, El Paso, Texas 79978, filed in Docket No. CP97-24-000 a request pursuant to Sections 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.212) for authorization to install and operate a new delivery point to accommodate deliveries of gas to El Paso Fuel Development Company (EPFD), in Mojave County, Arizona, under El Paso's blanket certificate issued in Docket No. CP82-435-000, pursuant to Section 7 of the Natural Gas Act, all as

more fully set forth in the request that is on file with the Commission and open to public inspection.

El Paso proposes to construct and operate the new delivery point, to be known as the Needle Mountain LNG Meter Station, in order to deliver up to 12,000 Mcf natural gas on a peak day to EPFD, which is a subsidiary of El Paso, on a peak day and up to 4,380,000 Mcf on an annual basis. It is stated that EPFD has requested the delivery point in order to be able to receive gas for conversion to LNG at a liquefaction plant being constructed near Topock, Arizona. It is stated that the facilities would consist of a 4-inch tap and valve assembly, a 3-inch meter run and appurtenant facilities, as well as approximately 400 feet of 4-inch pipeline connecting the meter station to the LNG plant.

El Paso proposes to make the deliveries by transporting the gas on an interruptible basis under a transportation service agreement with El Paso Gas Marketing Company, also a subsidiary of El Paso. The cost of the facilities is estimated at \$89,800, and it is stated that El Paso will be reimbursed by EPFD for such costs. It is asserted that the total volumes to be delivered to EPFD after the addition of the requested delivery point would not exceed those presently authorized. It is further asserted that El Paso has sufficient capacity to accomplish the deliveries without detriment or disadvantage to its other customers. It is further explained that El Paso's tariff does not prohibit the addition of delivery points.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Secretary.
