

SUPPLEMENTARY INFORMATION**I. Abstract**

The Survey of Program Dynamics (SPD) is a household-based survey designed as an omnibus data collection vehicle that can provide the basis for an overall evaluation of how well welfare reforms are achieving the aims of the Administration and the Congress, and meeting the needs of the American people.

The SPD will be a large, longitudinal, nationally-representative study that measures features of the welfare programs, including both programs that are being reformed and those that remain unchanged. The SPD will also measure other important social, economic, demographic and family changes that reflect the effectiveness of the welfare reforms.

With the August 22, 1996 signing of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (Pub L. 104-193), the Bureau of the Census is required to conduct the SPD using as the sample households from the 1992 and 1993 Survey of Income and Program Participation (SIPP). The information obtained will be used to evaluate the impact of this law on a sample of recipients of assistance under state programs funded under this law as well as assess the impact on other low-income families. Issues of particular attention include out-of-wedlock births, welfare dependency, the length of welfare spells, and the causes of repeat welfare spells. We also plan to collect information on the status of children who were in the 1992 and 1993 SIPP panels from 1998 survey and thereafter.

A sample of respondents originally in the 1992 and 1993 SIPP panels will be interviewed once a year from 1997-2001, and perhaps longer depending on funding. Separate OMB clearance requests will be submitted for a 1997 pretest and the 1998-2001 surveys. Prior to conducting a pretest of the initial SPD questionnaire, the Bureau of the Census will conduct a "bridge" survey during April-June 1997 using the March 1997 Current Population Survey (CPS) questionnaire, which contains annual retrospective questions on work experience, earnings, program participation, and health insurance coverage. This "bridge" survey and the 1992 and 1993 SIPP panels will provide baseline data for approximately 35,000 households for the period prior to the implementation of the welfare reform activities. With the pretest in the fall of 1997, the full survey implementation in the spring of 1998, and annually thereafter through 2001, the data gathered for the 10-year period (1992-

2001) will aid in assessing short to medium-term consequences or outcomes of the welfare legislation.

We plan to utilize a financial incentive program in the "bridge" survey as an attempt to attain a higher response rate. Each household that completes an interview will receive a small monetary compensation for their cooperation in the survey.

A small sample of households will be selected for reinterview during the "bridge" survey. The reinterview process assures that all households in the survey were properly contacted, and that the data are valid.

II. Method of Collection

The SPD is designed as a longitudinal study of welfare related activities, with the sample respondents drawn from the 1992 and 1993 SIPP panels being interviewed again in the "bridge" survey in 1997, followed by interviews once a year from 1998-2001 (including a pretest in late 1997). Survey years 1998-2001 will emphasize questions pertaining to children and their well-being.

III. Data

OMB Number: Not available.

Form Number: CPS/CAPI Automated Instrument.

Type of Review: Regular.

Affected Public: Individuals or households.

Estimated Number of Respondents: 35,000.

Estimated Time Per Response: 46 minutes per household (including reinterview).

Estimated Total Annual Burden Hours: 26,875.

Estimated Total Annual Cost: \$10,000,000.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 United States Code, Section 182 and Public Law 104-193, Section 414 (signed 8/22/96) (Title 42 United States Code, Section 614)

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: October 9, 1996.

Linda Engelmeier,
Acting Departmental Forms Clearance Officer, Office of Management and Organization.

Foreign-Trade Zones Board

[Docket 73-96]

Foreign-Trade Zone 198—Volusia County, Florida; Request for Manufacturing Authority, Capo, Inc. (Sunglasses/Reading Glasses)

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the County of Volusia, Florida, grantee of FTZ 198, pursuant to § 400.32(b)(2) of the Board's regulations (15 CFR Part 400), requesting authority on behalf of Capo, Inc., to manufacture sunglasses/reading glasses (HTS #9004.10) under FTZ procedures. It was formally filed on October 9, 1996.

Capo operates a facility within FTZ 198 that manufactures sunglasses and reading glasses. Presently, the company uses FTZ procedures at its facility for the storage of inventory. This application requests authority for allowing Capo to also conduct its assembly activity under FTZ procedures.

Most components are sourced from abroad (up to 95%), including: metal frames, plastic frames, sunglass lenses, imitation leather cords, man-made fiber
