

addition of new usage would not be expected to result in an increase in funding for the Tribe. The impact on existing contract health services will not be substantial. The current level of funding will allow sufficient flexibility to assure that there will be no significant reduction in the level of contract health services to current CHSDA residents, so the designation of the two-county CHSDA is within available resources.

Accordingly, after considering the Tribe's request in light of the criteria specified in the regulations, the IHS is redesignating the CHSDA of the Tribe to consist of Clallam and Jefferson Counties of the State of Washington.

This notice does not contain reporting or recordkeeping requirements subject to prior approval by the Office of Management and Budget under the Paperwork Reduction Act of 1980.
