

the delay inherent in the preparation and submission of a certificate application which must be approved before service could commence. Trunkline LNG notes that no construction of additional facilities is proposed.

Trunkline LNG points out that, while the proposed open-access service will be offered on a firm and interruptible basis, the availability of firm service is severely limited by Trunkline LNG's prior commitment to PanEnergy LNG. Trunkline LNG indicates that since the market may find terminal services available on a short-term basis worthwhile, the proposed tariff provisions governing the availability, scheduling and curtailment of open-access service have been carefully crafted to enable Trunkline LNG to provide short-term firm and interruptible service without interfering with PanEnergy LNG's priority to the long-term capacity of the Terminal.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 12, 1996, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulation Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be
