Title: Clean Vessel Act Pumpout Grant Program Accomplishment Survey.
OMB Approval Number: N/A. This is a new requirement.

Description: In order to evaluate the effectiveness and track the accomplishments of the Clean Vessel Act Pumpout Grant Program, the Service will query boaters about their knowledge of the program. The best way to reach the greatest number of boaters would be via a readership survey to be carried in one of this country's premiere recreational boating magazines, "Soundings." The magazine has offered to let the Service place a readership

survey postcard into a future issue. The magazine's circulation consists of 85,000 East Coast and Great Lakes boaters and anglers. Since the East Coast and the Great Lakes harbor the majority of installed pumpout facilities, this provides the Service an excellent and efficient method of carrying out its Congressional obligation.

The readership survey card would contain no more than seven questions concerning the availability and ease of the use of pumpouts. Most of the questions are to be multiple choice so that the reader would only have to check the appropriate box on most. The card will be a business reply card to which no postage would need to be affixed and is to have a special four digit ZIP Code addition.

Frequency: One time only.

Description of Respondents: Individuals or households.

Estimated Completion Time: The reporting burden is estimated to average 1 minute per response.

Annual Responses: 51,000.

Annual Burden Hours: 850.

Dated: October 21, 1996.

Assistant Director—External Affairs.
