#### **Submission for OMB Review; Comment Request—Requirements for Electrically Operated Toys and Children's Articles**

**AGENCY:** Consumer Product Safety Commission.

**ACTION:** Notice.

**SUMMARY:** In the Federal Register of December 4, 1995 (60 FR 62077), the Consumer Product Safety Commission published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) to announce the agency's intention to seek extension of approval of the collection of information in the Requirements for Electrically Operated Toys or Other Electrically Operated Articles Intended for Use by Children (16 CFR Part 1505). By publication of this notice, the Commission announces that it has submitted to the Office of Management and Budget a request for reinstatement of approval of that collection of information without change through December 31, 1999.

The regulations in Part 1505 establish performance and labeling requirements

for electrically operated toys and children's articles to reduce unreasonable risks of injury to children from electric shock, electrical burns, and thermal burns associated with those products. Section 1505.4(a)(3) of the regulations requires manufacturers and importers of electrically operated toys and children's articles to maintain records for three years containing information about: (1) material and production specifications; (2) the quality assurance program used; (3) results of all tests and inspections conducted; and (4) sales and distribution of electrically operated toys and children's articles.

The records of testing and other information required by the regulations allow the Commission to determine if electrically operated toys and children's articles comply with the requirements of the regulations in Part 1505. If the Commission determines that products fail to comply with the regulations, this information also enables the Commission and the firm to: (i) identify specific lots or production lines of products which fail to comply with applicable requirements; and (ii) notify distributors and retailers in the event those products are subject to recall.

Additional Information About the Request for Reinstatement of Approval of a Collection of Information

*Agency address:* Consumer Product Safety Commission, Washington, DC 20207.

*Title of information collection:* Requirements for Electrically Operated Toys or Other Electrically Operated Articles Intended for Use by Children, 16 CFR Part 1505.

*Type of request:* Reinstatement of approval without change.

*General description of respondents:* Manufacturers and importers of electrically operated toys and children's articles.

*Estimated number of respondents:* 40.

*Estimated average number of hours per respondent:* 200 per year.

*Estimated number of hours for all respondents:* 8,000 per year.

*Comments:* Comments on this request for extension of approval of information collection requirements should be sent within 30 days of publication of this notice to Victoria Wassmer, Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503; telephone: (202) 395-7340. Copies of the request for reinstatement of information collection requirements and supporting documentation are available from Carl Blechschmidt, Acting Director, Office of Planning and

Evaluation, Consumer Product Safety Commission, Washington, DC 20207; telephone: (301) 504-0416, extension 2243.

Dated: October 25, 1996.

BILLING CODE 6355-01-P

#### **Submission for OMB Review; Comment Request—Safety Standard for Walk-Behind Power Lawn Mowers**

**AGENCY:** Consumer Product Safety Commission.

**ACTION:** Notice.

**SUMMARY:** In the Federal Register of January 31, 1996 (61 FR 3373), the Consumer Product Safety Commission published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) to announce the agency's intention to seek extension of approval of the collection of information in the Safety Standard for Walk-Behind Power Lawn Mowers (16 CFR Part 1205). By publication of this notice, the Commission announces that it has submitted to the Office of Management and Budget a request for reinstatement of approval of that collection of information without change through December 31, 1999.

The Safety Standard for Walk-Behind Power Lawn Mowers establishes performance and labeling requirements for mowers to reduce unreasonable risks of injury resulting from accidental contact with the moving blades of mowers. Certification regulations implementing the standard require manufacturers, importers and private labelers of mowers subject to the standard to test mowers for compliance with the standard, and to maintain records of that testing.

The records of testing and other information required by the certification regulations allow the Commission to determine that walk-behind power mowers subject to the standard comply with its requirements. This information also enables the Commission to obtain corrective actions if mowers fail to comply with the standard in a manner which creates a substantial risk of injury to the public.
