

Equitrans proposes to install the proposed delivery tap on Equitrans field gathering pipeline No. W-4583 in Ritchie County, West Virginia. The tap will be instituted to provide transportation deliveries to Equitable Gas for ultimate distribution to one residential customer. Equitrans will charge Equitable the applicable transportation rate contained in Equitrans FERC Gas Tariff on file with and approved by the Commission. Equitrans projects that the 1 Mcf per day of peak service requested is within the entitlements of Equitable Gas, and will not impact Equitrans peak day and annual deliveries. Equitrans has sufficient capacity to accomplish the deliveries described herein without detriment to its other customers.

Equitrans states that the new delivery tap is not prohibited by its existing tariff and the total volumes delivered to Equitable Gas will not exceed total volumes authorized prior to the request.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.
