

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The respondent burden imposed by the no-migration petition is estimated to be 9,506 hours at a cost of \$471,490 for each facility planning to request a variance. This cost and hour burden is based on a proposed frequency of response of one per year, and an estimated likely number of respondents of one per year. The cost burden includes a total capital and start-up cost component annualized over its expected useful life, and a total operation and maintenance component, and a purchase of services component. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: October 25, 1996.

Elizabeth A. Cotsworth,

Acting Director, Office of Solid Waste.

National Drinking Water Advisory Council; Request for Nominations

The U.S. Environmental Protection Agency (EPA) invites all interested persons to nominate qualified individuals to serve as members of the National Drinking Water Advisory Council. This Advisory Council was established to provide practical and

independent advice, consultation and recommendations to the Agency on the activities, functions and policies related to the implementation of the Safe Drinking Water Act as amended. The Council consists of fifteen members, including a Chairperson. Five members represent the general public; five members represent appropriate state and local agencies concerned with water hygiene and public water supply; and five members represent private organizations or groups demonstrating an active interest in the field of water hygiene and public water supply. Each member holds office for a term of three years and is eligible for reappointment. On December 15 of each year, five members complete their appointment. Due to the resignation of one member, an additional vacancy is available. Therefore, this notice solicits names to fill six vacancies as of December 16, 1996.

Any interested person or organization may nominate qualified individuals for membership. Nominees should be identified by name, occupation, position, address and telephone number. Nominations must include a current résumé providing the nominee's background, experience, and qualifications.

Persons selected for membership will receive compensation for travel and a nominal daily compensation while attending meetings.

Nominations should be submitted to Charlene E. Shaw, Designated Federal Officer, National Drinking Water Advisory Council, U.S. Environmental Protection Agency, Office of Ground Water and Drinking Water (4601), 401 M Street SW, Washington, D.C. 20460, no later than 30 days after publication of this notice in the Federal Register. The agency will not formally acknowledge or respond to nominations. E-Mail your questions to Shaw.Charlene@epamail.epa.gov or call 202/260-2285.

Dated: October 23, 1996.

Cynthia C. Dougherty,

Director, Office of Ground Water and Drinking Water.
