Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Health Resources and Services Administration (HRSA) publishes abstracts of information collection requests under review by the Office of Management and Budget, in compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). To request a copy of the clearance requests submitted to OMB for review, call the HRSA Reports Clearance Office on (301)-443-1129.

The following request has been submitted to the Office of Management and Budget for review under the Paperwork Reduction Act of 1995:

Standard Needs Assessment Protocol for the National AIDS Education and Training Centers (AETC) Program—New—The National AIDS Education and Training Centers (AETC) Program is a network of fifteen regional centers with more than 75 local performance sites that conduct targeted multidisciplinary HIV education and training programs for health care providers. AETCs are required, as a condition of award, to conduct periodic assessments of the learning needs of health care providers in their catchment areas, before designing the training programs they intend to offer. The AETC program has developed a national learning needs assessment tool and protocol, which has been field tested and is now available for use by all fifteen AETCs. The survey instruments will be sent to a random sample of approximately 35,418 health care

providers nationally each year. Results from the surveys will be used to identify, for seven health care disciplines in each State and AETC

catchment area, topical areas in HIV/AIDS treatment in which training is most needed, and how best to provide the training. This will allow the AETCs

to develop training programs responsive to the identified needs. Each discipline will be surveyed every three years. The estimated burden is as follows:

Year 1					
Physicians	Target*	12,736	1	.25	3,184
