(d) * * *

(2) For nonqualified defined-benefit pension plans that meet the criteria set

forth at 9904.412-50(c)(3), pension costs assigned to a cost accounting period are fully allocable if they are funded at a level at least equal to the percentage of the complement (i.e., 100% minus tax rate % = percentage of assigned cost to be funded) of the highest published Federal corporate income tax rate in effect on the first day of the cost accounting period. * * *

9904.413 [Corrected]

3. In section 9904.413-60, correct the last sentence of paragraph (c)(7), the fourth sentence of paragraph (c)(8), the fifth sentence of paragraph (c)(12), the last sentence of paragraph (c)(13) and the second sentence of paragraph (c)(24) are corrected to read as follows:

(c) * * *

(7) * * * In accordance with 9904.413-50(c)(2)(iii), the amount of pension cost must be based on an acceptable termination of employment assumption for that segment; however, as provided in 9904.413-50(c)(10), all other assumptions for that segment may be the same as those for the remaining segments.

(8) * * * Although some employees are hired by the successor contractor, because Contractor K no longer operates the facility, it meets the 9904.413-30(a)(20)(iii) definition of a segment closing. * * *

* * * * *

(12) * * * In determining the segment closing adjustment under 9904.413-50(c)(12) the actuarial accrued liability and the market value of assets are reduced by the amounts transferred to the buyer by the sale. * * *

(13) * * * However, because all pension assets and liabilities have been transferred to other segments or to successors in interest of the contracts of Segment A, an immediate period adjustment is not required pursuant to 9904.413-50(c)(12)(v).

* * * * *

(24) * * * As permitted by 9904.413-50(c)(1)(ii), the contractor first applies \$12,000 of the contribution amount to Segment A, which is performing work under Government contracts, for purposes of 9904.412-50(d)(1). * * *
