Survey of Plant Capacity

AGENCY: Bureau of the Census, Commerce.

ACTION: Notice of consideration.

SUMMARY: Notice is hereby given that the Bureau of the Census is considering a proposal to conduct the Survey of Plant Capacity for the years 1995 and 1996 and annually for subsequent years under the authority of Title 13, United States Code, Sections 182, 224, and 225. On the basis of information and recommendations received by the Bureau of the Census and other agencies, the data have significant application to the needs of the public and industry.

DATES: Any suggestions or recommendations concerning the proposed survey should be submitted in writing by December 13, 1996 in order to receive consideration.

ADDRESSES: Director, Bureau of the Census, Washington, D.C. 20233.

FOR FURTHER INFORMATION CONTACT: Elinor Champion, Chief, Special Studies Branch, Manufacturing and Construction Division (301) 457-4683.

SUPPLEMENTARY INFORMATION: The plant capacity survey gathers data from a sample of manufacturing plants in the United States. The survey forms will collect data on the value of production during the fourth quarter of the year and the value of production that could have been attained if operating at full production capability. The survey will also collect estimates of production that could have been achieved under a national emergency situation. These data are used to calculate rates of utilization for each 4-digit standard industrial classification code in the manufacturing sector. The series is the

only comprehensive source of capacity utilization rates covering all manufacturing industries on a consistent basis. Data are used in monitoring inflationary pressure and capital flows, understanding productivity determinants, determining industry's ability to meet increasing demand for products in an emergency, and analyzing and forecasting economic and industrial trends. The primary Government users of the survey results will be the Federal Reserve Board, Department of Defense, Federal Emergency Management Agency, and the International Trade Administration among others. The data collected in this survey will be within the general scope and nature of those inquiries covered in the economic censuses.

This survey has been submitted to the Office of Management and Budget for approval in accordance with the Paperwork Reduction Act, Public Law 104-13. We will provide copies of the proposed form upon written request to the Director, Bureau of the Census, Washington, D.C. 20233.

Dated: November 6, 1996.

Martha Farnsworth Riche,
Director, Bureau of the Census.
