

157.211) for authorization to construct and operate a new tap that will render service to an existing firm transportation customer, National Fuel Gas Distribution Corporation (Distribution), under the blanket certificate issued in Docket No. CP83-4-000, pursuant to Section 7(c) of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

National proposes to construct and operate a new tap in the Town of Arcade, Wyoming County, New York, on National's Lime PY-8. National says the proposed annual quantity of gas to be delivered at this tap is estimated to be 1,000 Mcf. National explains that this tap will provide service to Distribution pursuant to National's EFT Rate Schedule. National reports that the estimated cost of the tap will be \$34,000, for which National will be reimbursed by Distribution.

National states that its FERC Gas Tariff does not prohibit the addition of this new tap; that the volumes to be delivered at the proposed tap will be within the certificated entitlements of Distribution; and that the proposed service will have a minimal impact on National's peak day and annual deliveries.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.
