

As described in the December 29, 1992 partial program approval, Wisconsin's MSWLF permit program has the authority to issue permits that incorporate the requirements in the revised Federal MSWLF Criteria to all MSWLFs in the State. In addition, Wisconsin's permit program contains provisions for public participation, compliance monitoring, and enforcement.

The Wisconsin compliance monitoring program has the authority to obtain information from a MSWLF facility, as well as the authority to enter and inspect any MSWLF site or record pertaining to solid waste management, to determine compliance. Wisconsin has mechanisms to verify the accuracy of information submitted by a MSWLF facility to verify the sampling methods used by a MSWLF facility, and to produce evidence admissible in an enforcement proceeding. Wisconsin has the authority to conduct monitoring or testing to ensure compliance. Wisconsin inspects MSWLFs to verify and document compliance with solid waste regulations, deter violations, and provide opportunities to inform and educate the regulated community.

Wisconsin has the authority to implement the following remedies for violation of program requirements:

1. Authority to restrain a person from conducting an activity that may endanger or cause damage of human health or the environment;
2. Authority to sue an individual who is violating provisions of any statutes, regulations, orders, or permits that have been issued by the State; and
3. Authority to administratively assess penalties for violating statutes, regulations, orders, or permits.

C. Decision

After reviewing the amended application, I conclude that Wisconsin's application for full program adequacy determination meets all of the statutory and regulatory requirements established by RCRA. Accordingly, Wisconsin is granted a full program determination of adequacy.

Section 4005(a) of RCRA provides that citizens may use the citizen suit provisions of Section 7002 of RCRA to enforce the revised Federal MSWLF criteria in 40 CFR Part 258 independent of any State enforcement program. As the USEPA explained in the preamble to the revised Federal MSWLF Criteria, the USEPA expects that any owner or operator complying with provisions in a State/Tribal program approved by the USEPA should be considered to be in compliance with the revised Federal

MSWLF Criteria. See 56 *FR* 50978, 50995 (October 9, 1991).

Today's action takes effect 60 days after the date of publication if no adverse comments are received.
