AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: November 20, 1996.

FOR FURTHER INFORMATION CONTACT: David Boyland or Daniel Lessard, Office

Preliminary Determination

The Department preliminarily determines that countervailable subsidies are not being provided to manufacturers, producers, or exporters of LHF in Canada.

Case History

Since the publication of the notice of initiation in the Federal Register (61 FR 15041 (April 4, 1996)), the following events have occurred:

On April 8, 1996, we issued countervailing duty questionnaires to the Government of Canada ("GOC"), the Government of Quebec ("GOQ"), and the companies identified in the petition as exporters of LHF from Canada concerning petitioner's allegations. We received responses to our questionnaire on May 16, 1996. We issued supplemental questionnaires to parties in May, July, and September for which responses were received in June, July, August, and October.

On June 7, 1996, we initiated an upstream subsidy investigation and postponed the preliminary determination (61 FR 29077). We issued a questionnaire relating to the upstream subsidy allegation to Nilus Leclerc Inc. and Industries Leclerc Inc. (Leclerc) on June 12, 1996 (see, *Related Party* section, below). We received Leclerc's response on June 27, 1996, with additional information submitted on July 11, 1996. From August 5 through 7, 1996, we conducted verification of the questionnaire responses relating to the upstream subsidy investigation.

Scope of Investigation

Based on information provided by U.S. Customs, the Department, for purposes of clarification only, drafted proposed changes to the original scope language (see May 7, 1996 memo to the file from analyst). On May 9, 1996, petitioner submitted comments on the Department's proposed changes. The scope of this investigation as outlined below reflects the clarification.

The scope of this investigation consists of certain edge-glued hardwood flooring made of oak, maple, or other hardwood lumber. Edge-glued
