

by sale to Southern Natural Gas Company (Southern) FGT's ownership interest in certain pipeline, measurement and appurtenant facilities know as Cognac Pipeline located just off the Louisiana Gulf Coast in the Outer Continental Shelf, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

FGT states that the Cognac Pipeline was originally constructed to deliver reserves from Mississippi Canyon Blocks 150, 151, 194, and 195 in the offshore Louisiana area. The Cognac Pipeline Consists of: (1) 26.3 miles of 16-inch pipeline extending from the platform in Block 194 to the South Pass in Plaquemines Parish, Louisiana; (2) 13.4 miles of 18-inch pipeline extending from the South Pass in Plaquemines Parish to a point of interconnection with Southern's existing 14-inch Romere Pass Pipeline, Plaquemines Parish, Louisiana; (3) .3 miles of 14-inch Pipeline from the Block 194 platform riser; and (4) a receiving station consisting of measurement facilities and certain related and appurtenant facilities.

FGT seeks to abandon by sale its 25.29502% interest in the Cognac Pipeline to Southern, which will acquire FGT's interest under its Part 157 Subpart F Blanket Construction Certificate upon Commission approval to abandon these facilities. FGT states that the sales price for the facilities to be conveyed to Southern is \$137,000, which will be a net gain since the facilities are fully depreciated. FGT proposes to sell its interest in the Cognac Pipeline because the purchase gas contract in the offshore Louisiana area has been terminated and the Cognac Pipeline is a non-contiguous lateral off the FGT system.

If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for FGT to appear or be represented at the hearing.
