

station in Lee County and to operate the facility under Section 7 of the NGA. ANR states that the proposed turbine meter at the Donnellson meter station would enable ANR to accommodate greater winter flow rates than the existing 2-inch positive displacement meter can currently handle. ANR delivers natural gas to MidAmerican Energy Company (MidAmerican) at this meter station. ANR further states that the proposed annual quantities of natural gas that would be delivered at the Donnellson meter station would not affect the installation of the proposed 2-inch turbine meter. ANR estimates that it would cost \$28,200 to construct the proposed 2-inch turbine meter.

ANR also proposes to abandon its Cal Spray meter station¹ (located on the Donnellson meter station site) which consists of two 6-inch orifice meters. ANR states that it no longer needs these facilities, because MidAmerican no longer serves Chevron Chemical Company's (Chevron) anhydrous ammonia plant at this location. Following Chevron's closing of the anhydrous ammonia plant, MidAmerican eliminated its tie-in with ANR at the Cal Spray meter station.
