

station in Lee County and to operate the facility under Section 7 of the NGA. ANR states that the proposed turbine meter at the Donnellson meter station would enable ANR to accommodate greater winter flow rates than the existing 2-inch positive displacement meter can currently handle. ANR delivers natural gas to MidAmerican Energy Company (MidAmerican) at this meter station. ANR further states that the proposed annual quantities of natural gas that would be delivered at the Donnellson meter station would not affect the installation of the proposed 2-inch turbine meter. ANR estimates that it would cost \$28,200 to construct the proposed 2-inch turbine meter.

ANR also proposes to abandon its Cal Spray meter station<sup>1</sup> (located on the Donnellson meter station site) which consists of two 6-inch orifice meters. ANR states that it no longer needs these facilities, because MidAmerican no longer serves Chevron Chemical Company's (Chevron) anhydrous ammonia plant at this location. Following Chevron's closing of the anhydrous ammonia plant, MidAmerican eliminated its tie-in with ANR at the Cal Spray meter station.

Any person or the Commission's staff may, within 45 days after the Commission has issued this notice, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the NGA (18 CFR 157.205) a protest to the request. If no protest is filed within the allowed time, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the NGA.
