

[Docket No. CP97-99-000]

**Wisconsin Public Service Corporation;
Notice of Application**

November 19, 1996.

Take notice that on November 14, 1996, Wisconsin Public Service Corporation (Public Service), 700 North Adams Street, P.O. Box 19001, Green Bay, Wisconsin 54307-9001, filed in Docket No. CP97-99-000 an application pursuant to Section 7(f) of the Natural Gas Act (NGA) for a service area determination, all as more fully set forth in the application on file with the Commission and open to public inspection.

Public Service states that it is a local distribution company operating service areas for the sale and distribution of natural gas in the States of Wisconsin and Michigan. Public Service receives natural gas from ANR Pipeline Company (ANR) at its Marinette, Wisconsin and Menominee, Michigan city-gates and sells gas received from ANR at retail to customers located in Wisconsin and Michigan. Public Service states that, in providing service to its customers, it has the capability to transport gas approximately four miles, via a twelve-inch, river-crossing distribution main, across the Menominee River between Marinette, Wisconsin and Menominee, Michigan. Public Service states that its local distribution of natural gas within Wisconsin is regulated by the Public Service Commission of Wisconsin and its local distribution of natural gas within Michigan is regulated by the Michigan Public Service Commission.

Public Service requests a service area determination for an area consisting of its Marinette, Wisconsin and Menominee, Michigan service areas and Public Service's rights-of-way connecting the designated areas. Additionally, Public Service requests: (i) a determination that Public Service qualifies as a local distribution company for purposes of Section 311 of the National Gas Policy Act (NGPA); (ii) a waiver of all reporting and accounting requirements and rules and regulations that are normally applicable to natural gas companies under the NGA and NGPA; (iii) such further relief as the Commission may deem appropriate.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 10, 1996, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and

Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Public Service to appear or be represented at the hearing.

Lois D. Cashell,

Secretary.
