

Buphenyl Powder (U.S. Patent No. 4,457,942) from Ucylyd Pharma, Inc., and the Patent and Trademark Office requested FDA's assistance in determining this patent's eligibility for patent term restoration. In a letter dated September 17, 1996, FDA advised the Patent and Trademark Office that this human drug product had undergone a regulatory review period and that the approval of Buphenyl Powder represented the first permitted commercial marketing or use of the product. Shortly thereafter, the Patent and Trademark Office requested that FDA determine the product's regulatory review period.

FDA has determined that the applicable regulatory review period for Buphenyl Powder is 4,528 days. Of this time, 4,089 days occurred during the testing phase of the regulatory review period, while 439 days occurred during the approval phase. These periods of time were derived from the following dates:

1. *The date an exemption under section 505(i) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(i)) became effective:* December 9, 1983. The applicant claims July 23, 1984, as the date the investigational new drug application (IND) became effective. However, FDA records indicate that the IND effective date was December 9, 1983.

2. *The date the application was initially submitted with respect to the human drug product under section 505(b) of the Federal Food, Drug, and Cosmetic Act:* February 17, 1995. The applicant claims February 15, 1995, as the date the new drug application (NDA) for Buphenyl Powder (NDA 20-573) was initially submitted. However, FDA records indicate that NDA 20-573 was submitted on February 17, 1995.

3. *The date the application was approved:* April 30, 1996. FDA has verified the applicant's claim that NDA 20-573 was approved on April 30, 1996.

This determination of the regulatory review period establishes the maximum potential length of a patent extension. However, the U.S. Patent and Trademark Office applies several statutory limitations in its calculations of the actual period for patent extension. In its application for patent extension, this applicant seeks 730 days of patent term extension.

Anyone with knowledge that any of the dates as published is incorrect may, on or before January 27, 1997, submit to the Dockets Management Branch (address above) written comments and ask for a redetermination. Furthermore, any interested person may petition FDA, on or before May 27, 1997, for a

determination regarding whether the applicant for extension acted with due diligence during the regulatory review period. To meet its burden, the petition must contain sufficient facts to merit an FDA investigation. (See H. Rept. 857, part 1, 98th Cong., 2d sess., pp. 41-42, 1984.) Petitions should be in the format specified in 21 CFR 10.30.

Comments and petitions should be submitted to the Dockets Management Branch (address above) in three copies (except that individuals may submit single copies) and identified with the docket number found in brackets in the heading of this document. Comments and petitions may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Dated: November 18, 1996.
Stuart L. Nightingale,
Associate Commissioner for Health Affairs.

BILLING CODE 4160-01-F

National Institutes of Health

Notice of Open Meeting

Notice is hereby given of the fifth meeting of the Task Force on Genetic Testing of the National Institutes of Health-Department of Energy Joint Working Group on Ethical, Legal, and Social Implications of Human Genome Research (ELSI Working Group) on Monday, December 2, 1996, 1:00 pm to recess; Tuesday, December 3, 1996, 8:00 am to adjournment, at the Doubletree Inn at the Colonnade, 4 West University Parkway, Baltimore, Maryland, (410) 235-5400.

Contact Person: Neil Holtzman, M.D., M.P.H., Genetics and Public Policy Studies, The Johns Hopkins Medical Institutions, 550 North Broadway, Suite 511, Baltimore, Maryland 21205, (410) 955-7894.

The Task Force has developed Interim Principles primarily regarding scientific validation of new genetic tests; laboratory quality; and education, counseling, and delivery. At this meeting, the Task Force will consider recommendations to implement key Principles. The Interim Principles are available on the World Wide Web at: <http://infonet.welch.jhu.edu/policy/genetics/>

Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should contact Dr. Holtzman in advance of the meeting.

BILLING CODE 4140-01-M

National Cancer Institute; Notice of Closed Meeting

Pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of the following meeting of the National Cancer Institute Special Emphasis Panel (SEP):

Name of SEP: Operation of Registry of Tumors in Lower Animals.

Date: December 9, 1996.

Time: 1:00 p.m. to 4:00 p.m.

Place: Executive Plaza North Conference Room F, 6130 Executive Boulevard, Rockville, MD 20857.

Contact Person: Lalita D. Palekar, Ph.D., Scientific Review Administrator, National Cancer Institute, 6130 Executive Blvd. MSC-7405, Bethesda, MD 20892, (301) 496-7575.

Purpose/Agenda: To evaluate and review responses to RFP NCI-CB-77021-34.

This notice is being published less than 15 days prior to the above meeting due to the urgent need to meet timing limitations imposed by the review and funding cycle.

The meeting will be closed in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S.C. Proposals and the discussions could reveal confidential trade secrets or commercial property such as patentable material and personal information concerning individuals associated with the applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.
