

(iv) Status of claims for commodity losses both resolved and unresolved during the reporting period;

(v) Quantity of commodity damaged or declared unfit during the reporting period; and

(vi) Quantity and type of the commodity that has been directly distributed by the Cooperating Sponsor, distribution date, region of distribution, and estimated number of individuals benefiting from the distribution.

(2) If the Program Agreement authorizes the sale or barter of commodities by the Cooperating Sponsor, the Cooperating Sponsor shall also submit a semiannual monetization report to the Agricultural Counselor or Attache and to the Director, CCC Program Support Division, FAS/USDA, Washington, DC 20250-1031, a monetization report covering the deposits into and disbursements from the special account for the purposes specified in the Program Agreement. The first report shall be submitted by the date specified in the Program Agreement, and cover the time period specified in the Program Agreement. Reports thereafter will cover each subsequent six (6) month period until all commodities have been distributed, bartered, or sale proceeds disbursed. The report must contain the following information and include both local currency amounts and U.S. dollar equivalents:

(i) Quantity and type of commodities sold;

(ii) Proceeds generated from the sale;

(iii) Proceeds deposited to the special account including the date of deposit;

(iv) Interest earned on the special account;

(v) Disbursements from the special account, including date, amount and purpose of the disbursement;

(vi) Any balance carried forward in the special account from the previous reporting period; and

(vii) In connection with a section 416(b) Program Agreement only, a description of the effectiveness of sales and barter provisions in facilitating the distribution of commodities and products to targeted recipients, and a description of the extent, if any, that sales, barter or use of commodities:

(A) Affected the usual marketings of the United States;

(B) Displaced or interfered with commercial sales of the United States;

(C) Disrupted world commodity prices or normal patterns of trade with friendly countries;

(D) Discouraged local production and marketing of commodities in the recipient country;

(E) Achieved the objectives of the Program Agreement; and

(F) Could be improved in future agreements.

(3) The Cooperating Sponsor shall furnish the Government of the Exporting Country such additional information and reports relating to the agreement as the Government of the Exporting Country may reasonably request.

§ 1499.17 Audits.

Nongovernmental Cooperating Sponsors shall assure that audits are performed to assure compliance with Program Agreements and the provisions of this part. An audit undertaken in accordance with OMB Circular A-133, shall fulfill the audit requirements of this section. Audits shall be performed at least annually until all commodities have been distributed and sale proceeds expended. Both the auditor and the auditing standards to be used by the Cooperating Sponsor must be acceptable to CCC. The Cooperating Sponsor is also responsible for auditing the activities of recipient agencies that receive more than \$25,000 of provided commodities or sale proceeds. This responsibility may be satisfied by relying upon independent audits of the recipient agency or upon a review conducted by the Cooperating Sponsor.

§ 1499.18 Suspension of the program.

All or any part of the assistance provided under a Program Agreement, including commodities in transit, may be suspended by CCC if:

(a) The Cooperating Sponsor fails to comply with the provisions of the Program Agreement or this part;

(b) CCC determines that the continuation of such assistance is no longer necessary or desirable; or

(c) CCC determines that storage facilities are inadequate to prevent spoilage or waste, or that distribution of commodities will result in substantial disincentive to, or interference with, domestic production or marketing in the recipient country.

§ 1499.19 Sample documents and guidelines for developing proposals and reports.

CCC has developed guidelines to assist the Cooperating Sponsors in developing proposals and reporting on program logistics and commodity sales. Cooperating Sponsors may obtain these guidelines from the Director, PDD.

§ 1499.20 Paperwork reduction requirement.

The paperwork and record keeping requirements imposed by this part have been previously submitted to the Office of Management and Budget (OMB) for

review under the Paperwork Reduction Act of 1995. OMB has assigned control number 0551-0035 for this information collection.

Signed this November 18, 1996, in Washington, D.C.

Christopher E. Goldthwait,
General Sales Manager, FAS, and Vice President, Commodity Credit Corporation.

BILLING CODE 3410-10-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 96-AGL-8]

Establishment of Class E Airspace; Grafton, ND, Grafton Municipal Airport

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E airspace at Grafton, ND. A Global Positioning System (GPS) standard instrument approach procedure (SIAP) to Runway 35 has been developed for the Grafton Municipal Airport. Controlled airspace extending upward from 700 to 1200 feet above ground level (AGL) is needed to contain aircraft executing the approach. The intended effect of this action is to provide segregation of aircraft using instrument approach procedures in instrument conditions from other aircraft operating in visual weather conditions.

EFFECTIVE DATE: 0901 UTC, March 27, 1997.

FOR FURTHER INFORMATION CONTACT: John A. Clayborn, Air Traffic Division, Operations Branch, AGL-530, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (847) 294-7568.

SUPPLEMENTARY INFORMATION:

History

On Wednesday, July 10, 1996, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish Class E airspace at Grafton, ND (61 FR 36315). The proposal was to add controlled airspace extending upward from 700 to 1200 feet AGL to contain Instrument Flight Rules (IFR) operations in controlled airspace during portions of the terminal operation and while transiting between the enroute and terminal environments.

Interested parties were invited to participate in this rulemaking proceeding by submitting written

comments on the proposal to the FAA. No comments objecting to the proposal were received. Class E airspace designations for areas extending upward from 700 feet or more above the surface of the Earth are published in paragraph 6005 of FAA Order 7400.9D dated September 4, 1996, and effective September 16, 1996, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) establishes Class E airspace at Grafton, ND to accommodate aircraft executing the GPS Runway 35 SIAP at Grafton Municipal Airport. Controlled airspace extending upward from 700 to 1200 feet AFL is needed to contain aircraft executing the approach. The area will be depicted on appropriate aeronautical charts thereby enabling pilots to circumnavigate the area or otherwise comply with IFR procedures.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389; 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation

Administration Order 7400.9D, Airspace Designations and Reporting Points, dated September 4, 1996, and effective September 16, 1996, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the Earth.

* * * * *

AGL ND E5 Grafton, ND [New]
Grafton Municipal Airport, ND
(Lat. 48°24'17"N., long. 97°22'15"W.)

That airspace extending upward from 700 feet above the surface within a 6.5 mile radius of the Grafton Municipal Airport.

BILLING CODE 4910–13–M

14 CFR Part 71

[Docket No. 96–ACE–20]

Amendment to Class E Airspace, Imperial, NE

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: This action amends the Class E airspace area at Imperial Municipal Airport, Imperial, NE. The Federal Aviation Administration has developed a Standard Instrument Approach Procedure (SIAP) based on the Global Positioning System (GPS) which has made this change necessary. The effect of this rule is to provide additional controlled airspace for aircraft executing the new SIAP at Imperial Municipal Airport.

DATES: *Effective date.* March 27, 1997.

Comment date: Comment must be received on or before January 26, 1997.

ADDRESSES: Send comments regarding the rule in triplicate to: Manager, Operations Branch, Air Traffic Division, ACE–530, Federal Aviation Administration, Docket Number 96–ACE–20, 601 East 12th St., Kansas City, MO 64106.

The official docket may be examined in the Office of the Assistant Chief Counsel for the Central Region at the same address between 9:00 and 3:00 p.m., Monday through Friday, except federal holidays.

An informal docket may also be examined during normal business hours in the Air Traffic Division at the same address listed above.

FOR FURTHER INFORMATION CONTACT: Kathy Randolph, Air Traffic Division,

Operations Branch, ACE–530C, Federal Aviation Administration; 601 East 12th Street, Kansas City, Missouri 64106; telephone: (816) 426–3408.

SUPPLEMENTARY INFORMATION: The FAA has developed Standard Instrument Approach Procedures (SIAP) utilizing the Global Positioning System (GPS) at Imperial Municipal Airport, Imperial, NE. The amendment to Class E airspace at Imperial, NE, will provide additional controlled airspace to segregate aircraft operating under Visual Flight Rules (VFR) from aircraft operating under Instrument Flight Rules (IFR) procedures while arriving or departing the airport. The area will be depicted on appropriate aeronautical charts thereby enabling pilots to either circumnavigate the area, continue to operate under VFR to and from the airport, or otherwise comply with IFR procedures. Class E airspace areas extending from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9D, dated September 4, 1996, and effective September 16, 1996, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and, therefore, is issuing it as a direct final rule. Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. The amendment will enhance safety for all flight operations by designating an area where VFR pilots may anticipate the presence of IFR aircraft at lower altitudes, especially during inclement weather conditions. A greater degree of safety is achieved by depicting the area on aeronautical charts. Unless a written adverse or negative comment, or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the Federal Register indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the Federal Register, and a notice of proposed rulemaking may be published with a new comment period.
