First Revised Volume No. 1

City of Peru; Notice of Availability of Environmental Assessment

November 22, 1996.

An environmental assessment (EA) is available for public review. The EA is an application for an amendment of license for the Starved Rock Lock and Dam Project. The amendment of license application concerns the addition of a new transmission line within the project boundary. The Starved Rock Lock and Dam Project is located in LaSalle County in Illinois.

The EA was written by staff in the Office of Hydropower Licensing,

Federal Energy Regulatory Commission. Copies of the EA are available for review at the Commission's Reference and Information Center, Room 2-A, 888 First Street, NE, Washington, D.C. 20426. Copies can also be obtained by calling the project manager, Jon Cofrancesco at (202) 219-0079.

Seattle City Light; Notice of Availability of Environmental Assessment

November 22, 1996.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 F.R. 47897), the Office of Hydropower Licensing and Compliance has reviewed the application for a new license for the existing Newhalem Creek Hydroelectric Project (project) and has prepared a Final Environmental Assessment (FEA) for the project. The project is located on Newhalem Creek, a tributary of the Skagit River, near the town of Newhalem, in northern Washington.

In the FEA, the Commission's staff has analyzed the existing and potential future environmental impacts of the project and has concluded that licensing the project, with appropriate environmental protective or enhancement measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

Copies of the FEA are available for review in the Public Reference Branch, Room 2A, of the Commission's offices at 888 First Street, N.E., Washington, D.C. 20426.
