Title: Wild Exotic Bird Import Application.

OMB Approval Number: 1018-0084.

Service Form Number: 3-200.

Description: The Wild Bird Conservation Act of 1992, (WBCA) authorizes the Fish and Wildlife Service (Service) to issue permits for the importation of individual birds from otherwise prohibited species for the following purposes (after a finding that such imports are not detrimental to the species' survival): scientific research, personally owned pets of individuals returning to the United States after being out of the country for at least one year; zoological breeding or display programs; and cooperative breeding program designed to promote the conservation of the species in the wild that are developed and administered by organizations meeting certain standards. The information required on the application is used by the Service to determine if an applicant should be granted a permit to import a bird species under the provisions of the WBCA. This requirement is being amended to add applications from foreign governments and foreign breeding facilities in accordance with recently enacted regulations to implement the WBCA. This amendment does not affect existing information collection requirements for scientific research, personal pets, zoological breeding or display, or cooperative breeding in any way.

The WBCA affords additional protection to birds that are protected by the Convention on International Trade

in Endangered Species (CITES). The WBCA prohibits the importation of any exotic bird that is listed in the Appendices of CITES unless the importation qualifies for one of the exemptions in the WBCA, for which a permit must be obtained in advance or, the exotic bird species to be imported is contained on an approved list in accordance with the WBCA, for which no permit is required.

Frequency: On occasion.

Description of Respondents:

Individuals or households; businesses or other for profit; non-profit institutions; small businesses or organizations; and foreign governments.

Completion Time: The reporting burden for all permits, except those for personally owned pets, will average four hours per response. Permits for personally owned pets will average one hour per application. Applications from foreign governments and breeding facilities will require an average of ten hours to complete. The average completion time for all applicants is 2.0 hours per response.

Annual Responses: Service experience indicates that approximately 600 applicants apply each year for permits including personally owned pets; 10 or less foreign governments; and, 20 foreign breeding facilities will apply. The total annual responses will be 630.

Annual Burden Hours: 1,300.

Dated: October 16, 1996.
