

Comments Invited

Although this action is in the form of a final rule and was not preceded by a notice of proposed rulemaking, comments are invited on this rule. Interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. Communications should identify the Rules Docket number and be submitted in triplicate to the address specified under the caption **ADDRESSES**. All communications received on or before the closing date for comments will be considered, and this rule may be amended or withdrawn in light of the comments received. Factual information that supports the commenter's ideas and suggestions is extremely helpful in evaluating the effectiveness of this action and determining whether additional rulemaking action would be needed.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule that might suggest a need to modify the rule. All comments submitted will be available, both before and after the closing date for comments in the Rules Docket for examination by interested persons. A report that summarizes each FAA-public contact concerned with the substance of this action will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this rule must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. 96-ACE-20." The postcard will be date stamped and returned to the commenter.

Agency Findings

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation is noncontroversial and unlikely to result in adverse or negative comments. For the reasons discussed in the preamble, I certify that this regulation (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory

Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES**.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

Accordingly, the Federal Aviation Administration amends part 71 of the Federal Aviation Regulations (14 CFR part 71) as follows:

PART 71—AMENDED

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389; 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9D, Airspace Designations and Reporting Points, dated September 4, 1996, and effective September 16, 1996, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

ACE NE E5 Imperial, NE [Revised]

Imperial Municipal Airport, NE
(Lat. 40°30'37.79"N., long.
101°37'12.21"W.)

Imperial NDB
(Lat. 40°30'42"N., long 101°37'39"W.)

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of the Imperial Municipal Airport and within 2.6 miles each side of the 129° bearing from the Imperial NDB extending from the 6.5-mile radius to 7 miles southeast of the airport.

BILLING CODE 4910-13-M

14 CFR Part 71

[Airspace Docket No. 96-ACE-11]

Amendment to Class E Airspace, Sioux City, IA

AGENCY: Federal Aviation Administration [FAA], DOT.

ACTION: Final rule; correction.

SUMMARY: This rule amends the Class E airspace area at Sioux Gateway Airport, Sioux City, IA. The effect of this rule is to provide additional controlled airspace for aircraft executing the new Standard Instrument Approach Procedure (SIAP) at Sioux Gateway Airport and departing aircraft to transition into controlled airspace. In addition, this action corrects an inadvertent editorial error in the description of Class E5 airspace, deletes the reference to the Gateway NDB and adds the word Sioux to Gateway NDB in the Class 4 airspace that was published in the Federal Register on August 6, 1996 (61 FR 40719), Airspace Docket No. 96-ACE-11, Direct final rule, request for comments.

EFFECTIVE DATE: 0901UTC, January 31, 1997.

FOR FURTHER INFORMATION CONTACT: Kathy Randolph, Operations Branch, ACE-530C, Federal Aviation Administration, 601 E. 12th St., Kansas City, MO 64106; telephone (816) 426-3408.

SUPPLEMENTARY INFORMATION: The FAA published this direct final rule with a request for comments in the Federal Register on August 6, 1996 (61 FR 40719). The FAA uses the direct final rulemaking procedure for a non-controversial rule where the FAA believes that there will be no adverse public comment. This direct final rule advises the public that no adverse comments were anticipated, and that unless a written adverse comment, or a written notice of intent to submit such an adverse comment, were received within the comment period, the regulation would become effective on January 31, 1997. No adverse comments were received, and thus this notice confirms that this final rule will become effective on that date. In addition, an error was discovered in the description of Class E5 airspace and the word Sioux was omitted from the Class E4 airspace. This action corrects that error.

Correction to Final Rule

Accordingly, pursuant to the authority delegated to me, the airspace description for the Class E airspace area at Sioux City, IA, as published in the Federal Register on August 6, 1996 (61

FR 40719), (FR Doc. 96-20002; page 40720, column 3 and page 40721, column 1) are corrected as follows:

§ 71.71 [Corrected]

* * * * *

ACE IA E5 Sioux City, IA [Corrected]
Sioux City, Sioux Gateway Airport, IA
(Lat. 42°24'09"N., long. 96°23'04"W.)
Sioux City VORTAC
(Lat. 42°20'40"N., long. 96°19'25"W.)

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Sioux Gateway Airport and within 3 miles each side of the 139° radial of the Sioux City VORTAC extending from the 7-mile radius to 17.8 miles southeast of the VORTAC and within 3 miles each side of the 319° radial of the Sioux city VORTAC extending from the 7-mile radius to 25.3 miles northwest of the VORTAC and within 2 miles each side of the 360° bearing from the Sioux Gateway Airport extending from the 7-mile radius to 9.2 miles north of the airport.

* * * * *

ACE IA E4 Sioux City, IA [Corrected]
Sioux City, Sioux Gateway Airport, IA
(Lat. 42°24'09"N., long. 96°23'04"W.)
Sioux City VORTAC
(Lat. 42°20'40"N., long. 96°19'25"W.)
Sioux Gateway NDB
(Lat. 42°24'29"N., long. 96°23'09"W.)

That airspace extending upward from the surface within 2.2 miles each side of the 140° radial of the Sioux City VORTAC extending from the 4.3-mile radius of the Sioux Gateway Airport to 5.3 miles southeast of the VORTAC and 2.5 miles each side of the 170° bearing from the Sioux Gateway NDB extending from the 4.3-mile radius of the Sioux Gateway Airport to 7 miles south of the NDB. This Class E airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.

Issued in Kansas City, MO, on November 12, 1996.

[Docket No. 28736; Amdt. No. 1766]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are

needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: An effective date for each SIAP is specified in the amendatory provisions.

Incorporation by reference approved by the Director of the Federal Register on December 31, 1980, and reapproved as of January 1, 1982.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Examination

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591;
2. The FAA Regional Office of the region in which the affected airport is located; or
3. The Flight Inspection Area Office which originated the SIAP.

For Purchase

Individual SIAP copies may be obtained from:

1. FAA Public Inquiry Center (APA-200), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591; or
2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription

Copies of all SIAPs, mailed once every 2 weeks, are for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

FOR FURTHER INFORMATION CONTACT: Paul J. Best, Flight Procedures Standards Branch (AFS-420), Technical Programs Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267-8277.

SUPPLEMENTARY INFORMATION: This amendment to part 97 of the Federal Aviation Regulations (14 CFR part 97) establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by

reference in this amendment under 5 U.S.C. 552(a), 1 CFR part 51, and § 97.20 of the Federal Aviation Regulations (FAR). The applicable FAA Forms are identified as FAA Form 8260-5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the Federal Register expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form documents is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

This amendment to part 97 is effective upon publication of each separate SIAP as contained in the transmittal. The SIAPs contained in this amendment are based on the criteria contained in the United States Standard for Terminal Instrument Approach Procedures (TERPS). In developing these SIAPs, the TERPs criteria were applied to the conditions existing or anticipated at the affected airports.

The FAA has determined through testing that current non-localizer type, non-precision instrument approaches developed using the TERPs criteria can be flown by aircraft equipped with Global Positioning System (GPS) equipment. In consideration of the above, the applicable Standard Instrument Approach Procedures (SIAPs) will be altered to include "or GPS" in the title without otherwise reviewing or modifying the procedure. (Once a stand alone GPS procedure is developed, the procedure title will be altered to remove "or GPS" from these non-localizer, non-precision instrument approach procedure titles.) Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs are, impracticable and contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are
