The Systems Analysis Technical Team will conduct joint research necessary to develop technologically advanced vehicles that can meet the goals of the Partnership for a New Generation of Vehicles (PNGV). PNGV is the joint effort of the Federal Government and the U.S. auto industry to develop affordable, fuel-efficient, low-emission automobiles that meet today's performance standards. The objective of this joint activity is to reduce significantly the cost and time needed to develop complex automotive systems by: (1) conducting rapid, cost-efficient analysis and assessment of vehicle concepts and supporting technology options; and (2) developing advanced analytical/computational capability to enable the accurate analysis of concept vehicles and production prototypes once overall designs and component/system technologies have been selected. To accomplish this objective, the Parties, working in conjunction with government entities and universities, will develop modeling and analysis methods covering component and system optimization techniques applicable to PNGV. These will form the basis for a comprehensive systems analysis capability to be jointly developed by government and industry. The Parties may also perform other acts allowed by the Act that would advance these goals.

American Tourister, A/K/A Samsonite; TA-W-32,492, Jacksonville, Florida; TA-W-32,493, Warren, Rhode Island; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Notice of Certification Regarding Eligibility to Apply for Worker Adjustment Assistance on August 21, 1996, applicable to workers of American Tourister located in Jacksonville, Florida and Warren, Rhode Island. The notice was published in the Federal Register on September 13, 1996 (61 FR 48504).

At the request of the company, the Department reviewed the certification for workers of the subject firm. New findings show that American Tourister is a division of Samsonite. Some of the workers at the subject firms' production facilities have had their UI taxes reported to the UI tax account for Samsonite.

The intent of the Department's certification is to include all workers of American Tourister who were affected by increased imports. Accordingly, the Department is amending the worker certification to include Samsonite.

The amended notice applicable to TA-W-32,492 and TA-W-32,493 is hereby issued as follows:

All workers of American Tourister also known as Samsonite, Jacksonville, Florida (TA-W-32,492) and Warren, Rhode Island (TA-W-32,493), who became totally or partially separated from employment on or after June 11, 1995, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C. this 22nd day of November 1996.
